

The council again discussed the sidewalk issue that was brought up earlier in the meeting. Members agreed to look at the area and possibly hold a special meeting to discuss it further.

Motion to adjourn by Sanderson, second by Case. Carried.

  
Robert Lutes, Mayor Pro Tem

Attest:   
Carol Whipple, Clerk

Special Meeting  
August 10, 1994  
7:00 p.m.

Members present: King, Case

Members absent: Sanderson, Krause, Lutes

The 7:00 o'clock meeting was held on the property of Lee and Donna Hogle.

John Cleary of Ryken Engineering explained how the extension of Wilhelm St. would affect their property. The curve in the street will be removed and the street straightened.

If a portion of their driveway is taken out and replaced there will be a sharp slope. If the whole drive is taken out there will be a more gradual slope. The Hogle's will decide which would be more agreeable to them. Fanning the entrance to the driveway was also discussed.

The easements at the back of the lot were discussed with Cleary. The Hogle's asked that Cleary visit with the contractor in regard to a tree on their property next to the easement that they don't want damaged.

Another tree on Gregg Sharp's property and in the easement where the sanitary sewer line will run may be moved if possible. The clerk will make some phone calls to see if it could be moved.

An easement agreement for the sanitary sewer was signed by the Hogle's and the City.

Meeting was adjourned.

  
Bill Gearhart, Mayor

Attest:   
Carol Whipple, Clerk
