(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for all injury to or death of any person or persons whomsoever, and all loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents and employees, and agrees to save them harmless from any and all claims, demands, lawsuits or liability whatsoever for any loss, damage, injury or death, including all costs and expenses incident thereto, by reason of the foregoing. The purpose of this chapter is to provide for a partial exemption from property taxation of the actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, distribution centers and the acquisition of or improvement to machinery and equipment assessed as real estate.

8.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. “Actual value added” means the actual value added as of the first year for which the exemption is received, except that actual value added by improvements to machinery and equipment means the actual value as determined by the local assessor as of January 1 of each year for which the exemption is received.

2. “Distribution center” means a building or structure used primarily for the storage of goods which are intended for subsequent shipment to retail outlets. Distribution center does not mean a building or structure used primarily to store raw agricultural products, used primarily by a manufacturer to store goods to be used in the manufacturing process, used primarily for the storage of petroleum products, or used for the retail sale of goods.

3. “New construction” means new buildings and structures and includes new buildings and structures which are constructed as additions to existing buildings and structures. New construction does not include reconstruction of an existing building or structure which does not constitute complete replacement of an existing building or structure or refitting of an existing building or structure unless the reconstruction of an existing building or structure is required due to economic obsolescence and the reconstruction is necessary to implement recognized industry standards for the manufacturing and processing of specific products and the reconstruction is required for the owner of the building or structure to continue competitively to manufacture or process those products, which determination shall receive prior approval from
the City Council of the City upon the recommendation of the Iowa Department of Economic Development.

4. “New machinery and equipment assessed as real estate” means new machinery and equipment assessed as real estate pursuant to Section 427A.1, Subsection 1, Paragraph “e”, Code of Iowa, unless the machinery or equipment is part of the normal replacement or operating process to maintain or expand the existing operational status.

5. “Research-service facilities” means a building or group of buildings devoted primarily to research and development activities, including, but not limited to, the design and production or manufacture of prototype products for experimental use, and corporate research services which do not have a primary purpose of providing on-site services to the public.

6. “Warehouse” means a building or structure used as a public warehouse for the storage of goods pursuant to Chapter 554, Article 7, of the Code of Iowa, except that it does not mean a building or structure used primarily to store raw agricultural products or from which goods are sold at retail.

8.03 PERIOD OF PARTIAL EXEMPTION. The actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, distribution centers, and the acquisition of or improvement to machinery and equipment assessed as real estate, is eligible to receive a partial exemption from taxation for a period of five (5) years.

(Code of Iowa, Sec. 427B.3)

8.04 AMOUNTS ELIGIBLE FOR EXEMPTION. The amount of actual value added which is eligible to be exempt from taxation shall be as follows:

(Code of Iowa, Sec. 427B.3)

1. For the first year, seventy-five percent (75%)
2. For the second year, sixty percent (60%)
3. For the third year, forty-five percent (45%)
4. For the fourth year, thirty percent (30%)
5. For the fifth year, fifteen percent (15%)

8.05 LIMITATIONS. The granting of the exemption under this chapter for new construction constituting complete replacement of an existing building or structure shall not result in the assessed value of the industrial real estate being reduced below the assessed value of the industrial real estate before the start of the new construction added.
CHAPTER 8  INDUSTRIAL PROPERTY TAX EXEMPTIONS

(Code of Iowa, Sec. 427B.3)

8.06 APPLICATIONS. An application shall be filed for each project resulting in actual value added for which an exemption is claimed.

1. The application for exemption shall be filed by the owner of the property with the local assessor by February 1 of the assessment year in which the value added is first assessed for taxation.

2. Applications for exemption shall be made on forms prescribed by the Director of Revenue and shall contain information pertaining to the nature of the improvement, its cost, and other information deemed necessary by the Director of Revenue.

8.07 APPROVAL. A person may submit a proposal to the City Council to receive prior approval for eligibility for a tax exemption on new construction. If the City Council resolves to consider such proposal, it shall publish notice and hold a public hearing thereon. Thereafter, at least thirty days after such hearing the City Council, by ordinance, may give its prior approval of a tax exemption for new construction if the new construction is in conformance with City zoning. Such prior approval shall not entitle the owner to exemption from taxation until the new construction has been completed and found to be qualified real estate.

(Code of Iowa, Sec. 427B.4)

8.08 EXEMPTION REPEALED. When in the opinion of the City Council continuation of the exemption granted by this chapter ceases to be of benefit to the City, the City Council may repeal this chapter, but all existing exemptions shall continue until their expiration.

(Code of Iowa, Sec. 427B.5)

8.09 DUAL EXEMPTIONS PROHIBITED. A property tax exemption under this chapter shall not be granted if the property for which the exemption is claimed has received any other property tax exemption authorized by law.

CHAPTER 36

HAZARDOUS SUBSTANCE SPILLS

36.01 PURPOSE. In order to reduce the danger to the public health, safety and welfare from the leaks and spills of hazardous substances, these regulations are promulgated to establish responsibility for the treatment, removal and cleanup of hazardous substance spills within the City limits.

36.02 DEFINITIONS. For purposes of this chapter the following terms are defined:

1. “Cleanup” means actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove or dispose of a hazardous substance.

   (Code of Iowa, Sec. 455B.381[1])

2. “Hazardous condition” means any situation involving the actual, imminent or probable spillage, leakage, or release of a hazardous substance onto the land, into a water of the State or into the atmosphere which creates an immediate or potential danger to the public health or safety or to the environment.

   (Code of Iowa, Sec. 455B.381[4])

3. “Hazardous substance” means any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. “Hazardous substance” may include any hazardous waste identified or listed by the administrator of the United States Environmental Protection Agency under the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976, or any toxic pollutant listed under section 307 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under Section 311 of the Federal
CHAPTER 36  HAZARDOUS SUBSTANCE SPILLS

Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the Secretary of Transportation under the Hazardous Materials Transportation Act.

(Code of Iowa, Sec. 455B.381[5])

4. “Responsible person” means a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance, the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance when a hazardous condition occurs, whether the person owns the hazardous substance or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance.

(Code of Iowa, Sec. 455B.381[7])

36.03 CLEANUP REQUIRED. Whenever a hazardous condition is created by the deposit, injection, dumping, spilling, leaking or placing of a hazardous substance, so that the hazardous substance or a constituent of the hazardous substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition. The costs of cleanup shall be borne by the responsible person. If the responsible person does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, the City may, by an authorized officer, give reasonable notice, based on the character of the hazardous condition, said notice setting a deadline for accomplishing the cleanup and stating that the City will proceed to procure cleanup services and bill the responsible person for all costs associated with the cleanup if the cleanup is not accomplished within the deadline. In the event that it is determined that immediate cleanup is necessary as a result of the present danger to the public health, safety and welfare, then no notice shall be required and the City may proceed to procure the cleanup and bill the responsible person for all costs associated with the cleanup. If the bill for those services is not paid within thirty (30) days, the City Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the City to finance it, the authorized officer shall report to the Council and immediately seek any State or Federal funds available for said cleanup.

36.04 LIABILITY FOR CLEANUP COSTS. The responsible person shall be strictly liable for all of the following:

1. The reasonable cleanup costs incurred by the City as a result of the failure of the responsible person to clean up a hazardous substance involved in a hazardous condition.
2. The reasonable costs incurred by the City to evacuate people from the area threatened by a hazardous condition caused by the person.

3. The reasonable damages to the City for the injury to, destruction of, or loss of City property, including parks and roads, resulting from a hazardous condition caused by that person, including the costs of assessing the injury, destruction or loss.

36.05 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance shall notify the State Department of Natural Resources and the County Sheriff's Department of the occurrence of a hazardous condition as soon as possible but not later than six (6) hours after the onset of the hazardous condition or discovery of the hazardous condition. The County Sheriff shall immediately notify the Department of Natural Resources.

2. Any other person who discovers a hazardous condition shall notify the County Sheriff's Department, which shall then notify the Department of Natural Resources.

36.06 POLICE AUTHORITY. If the circumstances reasonably so require, the law enforcement officer or an authorized representative may:

1. Evacuate persons from their homes to areas away from the site of a hazardous condition, and

2. Establish perimeters or other boundaries at or near the site of a hazardous condition and limit access to cleanup personnel.

No person shall disobey an order of any law enforcement officer issued under this section.

36.07 LIABILITY. The City shall not be liable to any person for claims of damages, injuries, or losses resulting from any hazardous condition, unless the City is the responsible person as defined in Section 36.02[4].

**EDITOR’S NOTE**

A suggested form of notice for the abatement of nuisances is included in the appendix of this Code of Ordinances.

Caution is urged in the use of this administrative abatement procedure, particularly where cost of abatement is more than minimal or where there is doubt as to whether or not a nuisance does in fact exist. If compliance is not secured following notice and hearings, we recommend you review the situation with your attorney before proceeding with abatement and assessment of costs. Your attorney may recommend proceedings in court under Chapter 657 of the Code of Iowa rather than this procedure.

A notice that a dog is a dangerous animal may include as an alternative an allegation that a dog is a vicious dog and the hearings shall proceed together under this section.

2. If, after hearing, the Mayor determines that an animal is dangerous, the Mayor shall order the person, firm, or corporation owning, sheltering, harboring or keeping the animal to remove it from the City, or to cause it to be destroyed in a humane manner. The order shall immediately be served upon the individual or entity against whom issued in the same manner as the notice of hearing. If the order is not complied with within three days of its issuance, the Mayor is authorized to seize and impound the animal. An animal so seized shall be impounded for a period of seven days. If at the end of the impoundment period, the individual or entity against whom the order of the Mayor was issued has not appealed such order to the Council, the Mayor shall cause the animal to be destroyed.

The decision and order shall immediately be served upon the person or entity against whom rendered in the same manner as the notice to remove or destroy. If the original order of the Mayor is not appealed and is not complied with within three (3) days or the order of the Council after appeal is not complied with within three (3) days of its issuance, the Mayor is authorized to seize and impound such dangerous animal. All costs of such impoundment or quarantine shall be paid by the owner if the animal is determined to be dangerous. If the animal is not determined to be dangerous, all costs of such impoundment or quarantine shall be paid by the City.

56.05 SEIZURE, IMPOUNDMENT AND DISPOSITION OF ILLEGAL ANIMALS.

1. In the event that an illegal animal is found at large and unattended upon public property, park property, public right-of-way or the property of someone other than its owner, thereby creating a hazard to persons or property, such animal may, at the discretion of the Mayor or a law enforcement officer, be destroyed if it cannot be confined or captured. The City shall be under no duty to attempt the confinement or capture of an illegal animal found at large, nor shall it have a duty to notify the owner of such animal prior to its destruction.

2. Upon the complaint of any individual that a person is keeping, sheltering or harboring an illegal animal per se on premises in the City, the Mayor shall cause the matter to be investigated and if after investigation, the facts indicate that the person named in the complaint is keeping, sheltering or harboring an illegal animal per se in the City, the Mayor or a law enforcement officer shall immediately seize any such animal. Any animal so seized shall be impounded for a period of seven (7) days. If at the end of the impoundment period, the individual or entity keeping, sheltering or harboring such illegal animal per se has not petitioned the Grundy County District Court seeking return of such illegal animal per se, the Mayor shall cause the animal to be disposed of by sale, permanently place such animal with an organization or group allowed to possess illegal animals, or destroy such animal in a humane manner.

3. Upon the complaint of any individual that a person is keeping, sheltering or harboring an illegal animal other than an illegal animal per se on premises in the City, the Mayor shall cause the matter to be investigated and if after investigation, the facts indicate that the person

Such order shall be contained in a notice to remove the illegal animal, which notice shall be given in writing to the person keeping, sheltering or harboring the illegal animal, and shall be served personally or by certified mail. Such order and notice to remove the illegal animal shall not be required where such illegal animal has previously caused serious physical harm or death to any person, in which case the Mayor shall cause the animal to be immediately seized or destroyed if seizure and impoundment are not possible without risk of serious physical harm or death to any person.

4. The order to remove an illegal animal other than an illegal animal per se issued by the Mayor may be appealed to the Council. In order to appeal such order, written notice of appeal must be filed with the Clerk within three (3) days after receipt of the order contained in the notice to remove the illegal animal. Failure to file such written notice of appeal shall constitute a waiver of the right to appeal the order of the Mayor.

5. The notice of appeal shall state the grounds for such appeal and shall be delivered personally or by certified mail to the Clerk. The hearing of such appeal shall be scheduled within seven (7) days of the receipt of the notice of appeal. The hearing may be continued for good cause. The hearing shall be confined to the record made before the Mayor and the arguments of the parties or their representatives, but no additional evidence shall be taken. After such hearing, the Council may affirm or reverse the order of the Mayor. Such determination shall be contained in a written decision and shall be filed with the Clerk within three (3) days after the hearing or any continued session thereof.

6. If the Council affirms the action of the Mayor, the Council shall order in its written decision that the individual or entity owning, sheltering, harboring or keeping such illegal animal remove such animal from the City, permanently place such animal with an organization or group allowed to possess illegal animals or destroy it. The decision and order shall immediately be served upon the person or entity against whom rendered in the same manner as the notice of removal. If the original order of the Mayor is not appealed and is not complied with within three (3) days or the order of the Council after appeal is not complied with within three (3) days of its issuance, the Mayor is authorized to seize and impound such illegal animal. An animal so
seized shall be impounded for a period of seven (7) days. If at the end of the impoundment period, the individual or entity against whom the decision and order of the Mayor or Council was issued has not petitioned the District Court for a review of said order, the Mayor shall cause the animal to be disposed of by sale, permanently place such animal with an organization or group allowed to possess illegal animals or destroy such animal in a humane manner. Failure to comply with an order of the Mayor issued pursuant hereto and not appealed, or of the Council after appeal, constitutes a municipal infraction.

56.06 VICIOUS DOGS.

1. No person shall keep, shelter or harbor a vicious dog within the City unless such person has registered the vicious dog with the City. The person registering the vicious dog must provide proof to the Clerk of personal liability insurance coverage with a minimum amount of $100,000.00 for bodily injury to or death of any person or persons or for damages to property owned by any such persons which may result from the keeping or owning of the vicious dog. Such insurance policy shall provide that no cancellation of the policy shall be made unless ten (10) days’ written notice is first given to the Clerk. Any unregistered vicious dog shall be deemed an illegal animal.

2. All vicious dogs shall be securely confined within an occupied house or residence or in a securely enclosed and locked pen or kennel, except when leashed and muzzled as provided above. Such pen, kennel or structure must have secure sides and a secure top attached to the sides, or in lieu of a top, walls at least six (6) feet in height and at least six (6) feet taller than any internal structure. All pens or other structures designed, constructed or used to confine vicious dogs must be locked with a key or a combination lock when such animals are within the structure. Such structure must have a secure bottom, floor or foundation attached to the sides of the pen, or the sides of the pen must be embedded in the ground no less than two (2) feet so as to prevent digging under the walls by the confined dog. All structures erected to house vicious dogs must comply with all zoning and building regulations of the City. All such structures must be adequately lighted and ventilated and kept in a clean and sanitary condition. No vicious dog may be kept on a porch, patio or in any part of a house or structure that would allow the dog to exit such building on its own volition. A vicious dog which is found more than twice in any calendar year not to be confined shall be required to be permanently removed from the City or destroyed. An animal which is returned to the City after removal under this section shall be destroyed.
3. No person shall permit a vicious dog to go outside its kennel or pen unless such dog is securely leashed with a leash no longer than six (6) feet in length. No person shall permit a vicious dog to be kept on a chain, rope or other type of leash outside of its kennel or pen unless both dog and leash are under the actual physical control of a person eighteen (18) years of age or older. Such dogs may not be leashed to inanimate objects such as trees, posts, buildings, or any other object or structure.

56.07 SEIZURE, IMPOUNDMENT AND DISPOSITION OF VICIOUS DOGS.

1. The Mayor, at the Mayor’s discretion, or upon receipt of a complaint alleging that a particular dog is a vicious dog, may initiate proceedings to declare such dog a vicious dog. If the owner contests said designation, a hearing on the matter shall be conducted by the Mayor. The person, firm, or corporation owning, keeping, sheltering, or harboring the dog in question shall be given not less than 72 hours’ written notice of the time and place of said hearing. Said notice shall set forth the description of the dog in question and the basis for the allegation of viciousness. The notice shall also set forth that if the dog is determined to be vicious, the owner will be required to register and confine the dog as required by this chapter. The notice shall be served upon any adult residing at the premises where the dog is located, or may be posted on those premises if no adult is present to accept service.

2. If, after hearing, the Mayor determines that a dog is a vicious dog, or a vicious dog is held in violation of this chapter as set out in the notice of hearing, the Mayor shall order the person, firm, or corporation owning, sheltering, harboring or keeping the dog to register and confine the dog as required by this chapter, or remove it from the City. The order shall immediately be served upon the individual or entity against whom issued in the same manner as the notice of hearing. If the order is not complied with within three days of its issuance, the Mayor is authorized to seize and impound the dog. A dog so seized shall be impounded for a period of seven days. If at the end of the impoundment period, the individual or entity against whom the order of the Mayor was issued has not appealed such order to the Council, or has not complied with the order, the Mayor shall cause the dog to be destroyed.

3. The order to register, confine or remove a vicious dog from the City issued by the Mayor may be appealed to the Council. In order to appeal such order, written notice of appeal must be filed with the Clerk within three days after receipt of the order. Failure to file such written
notice of appeal shall constitute a waiver of right to appeal the order of the Mayor.

4. The notice of appeal shall state the grounds for such appeal and shall be delivered personally or by certified mail to the Clerk. The hearing of such appeal shall be scheduled within twenty (20) days of the receipt of notice of appeal. The hearing may be continued for good cause. After such hearing, the Council may affirm or reverse the order of the Mayor. Such determination shall be contained in a written decision and shall be filed with the Clerk within three days after the hearing, or any continued session thereof. The hearing shall be confined to the record made before the Mayor and the arguments of the parties or their representatives, but no additional evidence shall be taken.

5. If the Council affirms the action of the Mayor, the Council shall order in its written decision that the individual or entity owning, sheltering, harboring or keeping such vicious dog shall register and confine said dog as required by this chapter or remove such dog from the City. The decision and order shall immediately be served upon the person against whom rendered in the same manner as the notice set out in subsection 1 of this section. If the original order of the Mayor is not appealed and is not complied with within three (3) days or the order of the Council after appeal is not complied with within three (3) days of its issuance, the Mayor is authorized to seize and impound such vicious dog. A dog so seized shall be impounded for a period of seven (7) days. If at the end of the impoundment period, the individual or entity against whom the decision and order of the Mayor or Council was issued has not petitioned the District Court for a review of said order, or has not complied with the order, the Mayor shall cause the dog to be destroyed in a humane manner.

6. Any dog which is alleged to be vicious and which is under impoundment or quarantine at an animal shelter shall not be released to the owner, but shall continue to be held at the expense of the owner pending the outcome of the hearing. All costs of such impoundment or quarantine shall be paid by the owner if the dog is determined to be vicious. If the dog is not determined to be vicious, all costs shall be paid by the City except costs attributable to initial confinement prior to notice or costs of any required quarantine which shall nonetheless be paid by the owner.

56.08 IMMEDIATE SEIZURE OR DESTRUCTION OF ANIMALS. Any animal found at large which displays dangerous tendencies or is an illegal animal may be processed as a dangerous animal and said animal may be

Any animal required by any provision of this chapter to be removed, voluntarily or otherwise, from the City shall be so removed by its owner or the person harboring or having control of such animal, and such person shall provide the Mayor a notarized statement designating the place to which the animal has been removed. 80.01 DEFINITIONS. For use in this chapter the following terms are defined:

(Code of Iowa, Sec. 321.89[1])

1. “Abandoned vehicle” means any of the following:

   A. A vehicle that has been left unattended on public property for more than twenty-four (24) hours and lacks current registration plates or two (2) or more wheels or other parts which renders the vehicle totally inoperable.

   B. A vehicle that has remained illegally on public property for more than twenty-four (24) hours.

   C. A vehicle that has been unlawfully parked or placed on private property without the consent of the owner or person in control of the property for more than twenty-four (24) hours.

   D. A vehicle that has been legally impounded by order of a police authority and has not been reclaimed for a period of ten (10) days. However, a police authority may declare the vehicle abandoned within the ten-day period by commencing the notification process.

   E. Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.

   F. A vehicle that has been impounded pursuant to Section 321J.4B of the Code of Iowa by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.

2. “Demolisher” means any city or public agency organized for the disposal of solid waste, or any person whose business it is to convert a vehicle to junk, processed scrap or scrap metal, or otherwise to wreck, or dismantle vehicles.
3. “Police authority” means the Iowa state patrol or any law enforcement agency of a county or city.

80.02 AUTHORITY TO TAKE POSSESSION OF ABANDONED VEHICLES. A police authority, upon the authority’s own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned vehicle on public property and may take into custody any abandoned vehicle on private property. A police authority taking into custody an abandoned vehicle which has been determined to create a traffic hazard shall report the reasons constituting the hazard in writing to the appropriate authority having duties of control of the highway. The police authority may employ its own personnel, equipment and facilities or hire a private entity, equipment and facilities for the purpose of removing, preserving, storing, or disposing of abandoned vehicles. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle.

(Code of Iowa, Sec. 321.89(2))

80.03 NOTICE BY MAIL. The police authority or private entity which takes into custody an abandoned vehicle shall notify, within twenty (20) days, by certified mail, the last known registered owner of the vehicle, all lienholders of record, and any other known claimant to the vehicle or to personal property found in the vehicle, addressed to their last known addresses of record, that the abandoned vehicle has been taken into custody. Notice shall be deemed given when mailed. The notice shall describe the year, make, model and serial number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within ten (10) days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of the notice. The notice shall also state that the failure of the owner, lienholders or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders and claimants of all right, title, claim and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a
public auction or disposal of the vehicle to a demolisher and to disposal of the personal property by sale or destruction. The notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving the notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the ten (10) day reclaiming period, the owner, lienholders or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders or claimants after the expiration of the ten (10) day reclaiming period.

(Code of Iowa, Sec. 321.89[3a])

80.04 NOTIFICATION IN NEWSPAPER. If the identity of the last registered owner cannot be determined, or if the registration contains no address for the owner, or if it is impossible to determine with reasonable certainty the identity and addresses of all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Section 80.03. The published notice may contain multiple listings of abandoned vehicles and personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Section 80.03.

(Code of Iowa, Sec. 321.89[3b])

80.05 EXTENSION OF TIME. The owner, lienholders or claimants may, by written request delivered to the police authority or private entity prior to the expiration of the ten (10) day reclaiming period, obtain an additional five (5) days within which the motor vehicle or personal property may be reclaimed.

(Code of Iowa, Sec. 321.89[3c])

80.06 FEES FOR IMPOUNDMENT. The owner, lienholder or claimant shall pay all towing and storage fees as established by the storage facility, whereupon the vehicle shall be released.

(Code of Iowa, Sec. 321.89[3a])

80.07 DISPOSAL OF ABANDONED VEHICLES. If an abandoned vehicle has not been reclaimed as provided herein, the police authority or private entity shall make a determination as to whether or not the motor vehicle
should be sold for use upon the highways, and shall dispose of the motor vehicle in accordance with State law.

(Code of Iowa, Sec. 321.89[4])

80.08 DISPOSAL OF TOTALLY INOPERABLE VEHICLES. The City or any person upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost or destroyed, may dispose of such motor vehicle to a demolisher for junk, without a title and without notification procedures, if such motor vehicle lacks an engine or two (2) or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.

(Code of Iowa, Sec. 321.90[2e])

80.09 PROCEEDS FROM SALES. Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for ninety (90) days, and then shall be deposited in the State Road Use Tax Fund. Where the sale of any vehicle fails to realize the amount necessary to meet costs the police authority shall apply for reimbursement from the Department of Transportation.

(Code of Iowa, Sec. 321.89[4])

80.10 DUTIES OF DEMOLISHER. Any demolisher who purchases or otherwise acquires an abandoned motor vehicle for junk shall junk, scrap, wreck, dismantle or otherwise demolish such motor vehicle. A demolisher shall not junk, scrap, wreck, dismantle or demolish a vehicle until the demolisher has obtained the junking certificate issued for the vehicle.

CHAPTER 90  WATER SERVICE SYSTEM

temporary rules for the protection of the system until due consideration by the Council may be had.

(Code of Iowa, Sec. 372.13[4])

90.03 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be connected to the public water system, if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

90.04 ABANDONED CONNECTIONS. When an existing water service is abandoned or a service is renewed with a new tap in the main, all abandoned connections with the mains shall be turned off at the corporation valve and made absolutely watertight. In the event any structure served by a water line is demolished or moved from the premises, water service to the structure shall be disconnected by the City, and the owner of the property shall pay to the City a fee of $100.00 for disconnection. It shall be the responsibility of the owner to expose and cover the area where the service line is to be disconnected.

(Ord. 235 – Jun. 05 Supp.)

90.05 PERMIT. Before any person makes a connection with the public water system, a written permit must be obtained from the City. The application for the permit shall include a legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the general uses of the water. If the proposed work meets all the requirements of this chapter and if all fees required under this chapter have been paid, the permit shall be issued. Work under any permit must be completed within sixty (60) days after the permit is issued, except that when such time period is inequitable or unfair due to conditions beyond the control of person making the application, an extension of time within which to complete the work may be granted. The permit may be revoked at any time for any violation of these chapters.

90.06 CONNECTION CHARGE. Before any permit is issued the person who makes the application shall pay a connection charge in the amount of one hundred fifty dollars ($150.00) to reimburse the City for costs borne by the City in making water service available to the property served.

(Code of Iowa, Sec. 384.84)

90.07 COMPLIANCE WITH PLUMBING CODE. The installation of any water service pipe and any connection with the water system shall comply with all pertinent and applicable provisions, whether regulatory, procedural or enforcement provisions, of Division 4, Plumbing Rules and Regulations, of the State Building Code.
90.08 PLUMBER REQUIRED. All installations of water service pipes and connections to the water system shall be made by a plumber approved by the City. The Superintendent shall have the power to suspend the approval of any plumber for violation of any of the provisions of this chapter. A suspension, unless revoked, shall continue until the next regular meeting of the City Council. The Superintendent shall notify the plumber immediately by personal written notice of the suspension, the reasons for the suspension and the time and place of the Council meeting at which the plumber will be granted a hearing. At this Council meeting the Superintendent shall make a written report to the Council stating the reasons for the suspension, and the Council, after fair hearing, shall affirm or revoke the suspension or take any further action that is necessary and proper.

90.09 EXCAVATIONS. All trench work, excavation and backfilling required in making a connection shall be performed in accordance with applicable excavation provisions as provided for installation of building sewers and/or the provisions of Chapter 135.

90.10 TAPPING MAINS. The connection with the municipal water system must be made under the supervision of the Superintendent or an authorized assistant. All taps in the water main must be at least twelve (12) inches apart.

90.11 WATER SERVICE PIPES. Water service pipes shall be of such material as obtained from, or approved by, the Superintendent to assure uniformity in all connections. The pipe must be laid sufficiently waving, and to such depth, as to prevent rupture from settlement or freezing.

90.12 RESPONSIBILITY FOR WATER SERVICE PIPE. The water service line from the curb valve to the building served is owned by the property owner, who shall be responsible for all repair and replacement. The City shall be responsible for the service line from, and including, the curb valve to the water main.

90.13 FAILURE TO MAINTAIN. When any portion of the water service pipe which is the responsibility of the property owner becomes defective or creates a nuisance and the owner fails to correct such nuisance the City may do so and assess the costs thereof to the property.

(Code of Iowa, Sec. 364.12[3a & h])

90.14 CURB VALVE. There shall be installed within the public right-of-way a main shut-off valve on the water service pipe near the curb with a suitable lock of a pattern approved by the Superintendent. The shut-off valve shall be covered with a heavy metal cover having the letter “W” marked thereon, visible and even with the pavement or ground.
90.15 INTERIOR VALVE. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.16 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for twenty-four (24) hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the Superintendent shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before receiving another permit. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.18 SHUTTING OFF WATER SUPPLY. The Superintendent may shut off the supply of water to any customer because of any violation of the regulations contained in these Water Service System chapters that is not being contested in good faith. The supply shall not be turned on again until all violations have been corrected and the Superintendent has ordered the water to be turned on.

90.19 OPERATION OF CURB VALVE AND HYDRANTS. It is unlawful for any person except the Superintendent to turn water on at the curb valve, and no person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

CHAPTER 91

WATER METERS

91.01 PURPOSE. The purpose of this chapter is to encourage the conservation of water and facilitate the equitable distribution of charges for water service among customers.

91.02 WATER USE METERED. All water furnished customers shall be measured through meters of a type approved by the Superintendent and shall be secured and installed by the City.

91.03 FIRE SPRINKLER SYSTEMS - EXCEPTION. Fire sprinkler systems may be connected to water mains by direct connection without meters under the direct supervision of the Superintendent. No open connection can be incorporated in the system, and there shall be no valves except a main control valve at the entrance to the building which must be sealed open.

91.04 LOCATION OF METERS. All meters shall be so located that they are easily accessible to meter readers and repairmen and protected from freezing. All meters shall be installed in locations approved by the Superintendent.

91.05 METER SETTING. The property owner shall provide all necessary piping and fittings for proper setting of the meter including a valve on the discharge side of the meter. Meter pits may be used only upon approval of the Superintendent and shall be of a design and construction approved by the Superintendent.

91.07 METER REPAIRS. Whenever a water meter owned by the City is found to be out of order the Superintendent shall have it repaired. If it is found that damage to the meter has occurred due to the carelessness or negligence of the customer or property owner, or the meter is not owned by the City, then the property owner shall be liable for the cost of repairs.
91.08 RIGHT OF ENTRY. The Superintendent shall be permitted to enter the premises of any customer at any reasonable time to read, remove, or change a meter.
CHAPTER 92
WATER RATES

92.01 SERVICE CHARGES. Each customer shall pay for water service provided by the City based upon use of water as determined by meters provided for in Chapter 91. Each location, building, premises or connection shall be considered a separate and distinct customer whether owned or controlled by the same person or not. “Customer,” as used in this chapter, means each individual, industrial or commercial business in each individual household or family unit residing together in the same house, apartment or mobile home. A person or a family renting space in a home is considered a separate customer. In the case of a residence, apartment building or mobile home court where fewer water meters exist than the number of family units residing thereon, then the total usage through the meter shall be divided by the number of units served and the rates shall then be determined as if each unit were metered separately.

(Code of Iowa, Sec. 384.84)

92.02 RATES FOR SERVICE. Water service shall be furnished at the following rates within the City:

(Code of Iowa, Sec. 384.84)

1. Metered Water. Metered water shall be furnished at the following rates within the City:

On each July 1 thereafter, said water rates shall be increased by 2.0% over the rates in effect during the preceding year.

   (Ord. 235 – Jun. 05 Supp.)
92.03 RATES OUTSIDE THE CITY. Water service shall be provided to any customer located outside the corporate limits of the City which the City has agreed to serve at the same rates provided in Section 92.02. No such customer, however, will be served unless the customer shall have signed a service contract agreeing to be bound by the ordinances, rules and regulations applying to water service established by the Council.

(Code of Iowa, Sec. 364.4 & 384.84)

92.04 BILLING FOR WATER SERVICE. Water service shall be billed as part of a combined service account, payable in accordance with the following:

(Ord. 235 – Jun. 05 Supp.)

92.05 SERVICE DISCONTINUED. Water service to delinquent customers shall be discontinued in accordance with the following:

(Code of Iowa, Sec. 384.84)

1. Notice. The Clerk shall notify each delinquent customer that service will be discontinued if payment of the combined service account, including late payment charges, is not received by the date specified in the notice of delinquency. Such notice shall be sent by ordinary mail and shall inform the customer of the nature of the delinquency and afford the customer the opportunity for a hearing prior to the discontinuance.

2. Notice to Landlords. If the customer is a tenant, and if the owner or landlord of the property has made a written request for notice, the notice of delinquency shall also be given to the owner or landlord.

3. Hearing. If a hearing is requested by noon of the day preceding the shut off, the Mayor shall conduct an informal hearing and shall make a determination as to whether the disconnection is justified. If the Mayor finds that disconnection is justified, then such disconnection shall be made, unless payment has been received.
4. Fees. A fee of thirty-five dollars ($35.00) shall be charged before service is restored to a delinquent customer. No fee shall be charged for the usual or customary trips in the regular changes in occupancies of property.

92.06 LIEN FOR NONPAYMENT. The owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for water service charges to the premises. Water service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa, Sec. 384.84)

92.07 LIEN EXEMPTION. The lien for nonpayment shall not apply to a residential rental property where water service is separately metered and the rates or charges for the water service are paid directly to the City by the tenant, if the landlord gives written notice to the City that the property is residential rental property and that the tenant is liable for the rates or charges. The City may require a deposit not exceeding the usual cost of ninety (90) days of water service be paid to the City. The landlord’s written notice shall contain the name of the tenant responsible for charges, the address of the rental property and the date of occupancy. A change in tenant shall require a new written notice to be given to the City within ten (10) business days of the change in tenant. When the tenant moves from the rental property, the City shall refund the deposit if the water service charges are paid in full. A change in the ownership of the residential rental property shall require written notice of such change to be given to the City within ten (10) business days of the completion of the change of ownership. The lien exemption does not apply to delinquent charges for repairs to a water service.

(Ord. 221 – Oct. 99 Supp.)

92.08 LIEN NOTICE. A lien for delinquent water service charges shall not be certified to the County Treasurer unless prior written notice of intent to certify a lien is given to the customer. If the customer is a tenant and if the owner or landlord of the property has made a written request for notice, the notice shall also be given to the owner or landlord. The notice shall be sent to the appropriate persons by ordinary mail not less than ten (10) days prior to certification of the lien to the County Treasurer.

(Code of Iowa, Sec. 384.84)

92.09 CUSTOMER DEPOSITS. There shall be required from every customer a one hundred dollar ($100.00) deposit intended to guarantee the payment of bills for service. Such deposit shall be refunded without interest after timely payment of six consecutive bills for service. (Ord. 235 – Jun. 05 Supp.)
92.10 TEMPORARY VACANCY. A property owner may request water service be temporarily discontinued and shut off at the curb valve when the property is expected to be vacant for an extended period of time. There shall be a thirty-five dollar ($35.00) fee collected for restoring service. During a period when service is temporarily discontinued as provided herein there shall be no minimum service charge. The City will not drain pipes or pull meters for temporary vacancies.

95.02 DEFINITIONS. For use in these chapters, unless the context specifically indicates otherwise, the following terms are defined:

1. “B.O.D.” (denoting Biochemical Oxygen Demand) means the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at twenty (20) degrees C., expressed in milligrams per liter or parts per million.

2. “Building drain” means that part of the lowest horizontal piping of a building drainage system which receives the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer, beginning five (5) feet (1.5 meters) outside the inner face of the building wall.

3. “Building sewer” means that part of the horizontal piping from the building wall to its connection with the main sewer or the primary treatment portion of an on-site wastewater treatment and disposal system conveying the drainage of one building site.

4. “Combined sewer” means a sewer receiving both surface run-off and sewage.

5. “Customer” means any person responsible for the production of domestic, commercial or industrial waste which is directly or indirectly discharged into the public sewer system.

6. “Garbage” means solid wastes from the domestic and commercial preparation, cooking, and dispensing of food, and from the handling, storage and sale of produce.

21. “Storm drain” or “storm sewer” means a sewer which carries storm and surface waters and drainage but excludes sewage and industrial wastes, other than unpolluted cooling water.

22. “Superintendent” means the Superintendent of sewage works and/or of water pollution control of the City or any authorized deputy, agent, or representative.

23. “Suspended solids” means solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by laboratory filtering.

24. “Watercourse” means a channel in which a flow of water occurs, either continuously or intermittently.

95.03 SUPERINTENDENT. The Superintendent shall exercise the following powers and duties:

(Code of Iowa, Sec. 372.13[4])

1. Operation and Maintenance. Operate and maintain the City sewage system.

2. Inspection and Tests. Conduct necessary inspections and tests to assure compliance with the provisions of these Sanitary Sewer chapters.

3. Records. Maintain a complete and accurate record of all sewers, sewage connections and manholes constructed showing the location and grades thereof.

95.04 PROHIBITED ACTS. No person shall do, or allow, any of the following:

1. Damage Sewer System. Maliciously, willfully, or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is a part of the sewer system.

(Code of Iowa, Sec. 716.1)

2. Surface Run-off or Groundwater. Connect a roof downspout, sump pump, exterior foundation drain, areaway drain, or other source of surface run-off or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.
3. Manholes. Open or enter any manhole of the sewer system, except by authority of the Superintendent.

4. Objectionable Wastes. Place or deposit in any unsanitary manner on public or private property within the City, or in any area under the jurisdiction of the City, any human or animal excrement, garbage, or other objectionable waste.

5. Septic Tanks. Construct or maintain any privy, privy vault, septic tank, cesspool, or other facility intended or used for the disposal of sewage except as provided in these chapters.

   (Code of Iowa, Sec. 364.12[3f])

95.05 SEWER CONNECTION REQUIRED. The owners of any houses, buildings, or properties used for human occupancy, employment, recreation or other purposes, situated within the City and abutting on any street, alley or right-of-way in which there is now located, or may in the future be located, a public sanitary or combined sewer, are hereby required to install, at such owner’s expense, suitable toilet facilities therein and a building sewer connecting such facilities directly with the proper public sewer, and to maintain the same all in accordance with the provisions of these Sanitary Sewer chapters, such compliance to be completed within sixty (60) days after the City determines that the public interest will be best served by requiring connection to the public sewer and provided that said public sewer is located within one hundred (100) feet (30.5 meters) of the property line of such owner and is of such design to receive and convey by gravity such sewage as may be conveyed to it, and further provided that the Council shall have full and complete discretion determining the public interest including the right to waive the provisions in this section in special cases. Billing for sanitary sewer service will begin on the first day of the month immediately following the date of official notice to connection of the public sewer.

   (Ord. 261 – Mar. 14 Supp.)

   (Code of Iowa, Sec. 364.12 [3f])

   (IAC, 567-69.1[3])
CHAPTER 95  SANITARY SEWER SYSTEM

95.06 SERVICE OUTSIDE THE CITY. The owners of property outside the corporate limits of the City so situated that it may be served by the City sewer system may apply to the Council for permission to connect to the public sewer upon the terms and conditions stipulated by resolution of the Council.

(Code of Iowa, Sec. 364.4 [2 & 3])

95.07 RIGHT OF ENTRY. The Superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of these Sanitary Sewer chapters. The Superintendent or representatives shall have no authority to inquire into any processes including metallurgical, chemical, oil, refining, ceramic, paper, or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for waste treatment.

95.08 OWNER’S LIABILITY LIMITED. While performing the necessary work on private property, the Superintendent or duly authorized employees of the City shall observe all safety rules applicable to the premises established by the owner or occupant and the owner or occupant shall be held harmless for injury or death to City employees and the City shall indemnify the owner or occupant against loss or damage to its property by City employees and against liability claims and demands for personal injury or property damage asserted against the owner or occupant and growing out of any gauging and sampling operation, except as such may be caused by negligence or failure of the owner or occupant to maintain safe conditions.

95.09 USE OF EASEMENTS. The Superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

95.10 SPECIAL PENALTIES. The following special penalty provisions shall apply to violations of these Sanitary Sewer chapters:

1. Notice of Violation. Any person found to be violating any provision of these chapters except subsections 1, 3 and 4 of Section 95.04, shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory
correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

2. Continuing Violations. Any person who shall continue any violation beyond the time limit provided for in subsection 1 hereof, shall be in violation of this Code of Ordinances and each day in which any such violation shall continue shall be deemed a separate offense.

(Ord. 222 – Oct. 99 Supp.)

3. Liability Imposed. Any person violating any of the provisions of these chapters shall become liable to the City for any expense, loss, or damage occasioned the City by reason of such violation.

**96.01 PERMIT.** No unauthorized person shall uncover, make any connection with or opening into, use, alter or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within sixty (60) days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner’s control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

**96.02 PERMIT FEE AND CONNECTION CHARGE.** The person who makes the application shall pay a fee in the amount of one hundred dollars ($100.00) to the Clerk to cover the cost of issuing the permit and supervising, regulating, and inspecting the work. In addition, all sanitary facilities constructed by or for the City, the total cost of which has not been assessed against either the abutting or benefited properties by the levying of special assessments, shall be paid for by the owner of abutting or benefited property before said sanitary sewer facilities are tapped or used. The Council shall divide or prorate the cost among the properties benefited thereby and among the property abutting thereon, and shall adopt a resolution setting forth the charges or fees against the various properties abutting on said sewer facilities or benefited thereby. Before any person shall tap or use said sewer facility, the connection charge as set forth in the said resolution shall be paid in full. The total connection charge for all property in any subdivision approved by the Council shall be paid before approval of the final plat of the subdivision.

**96.03 PLUMBER REQUIRED.** All installations of building sewers and connections to the public sewer shall be made by a plumber approved by the
City. The Superintendent shall have the power to suspend the approval of any plumber for violation of any of the provisions of these Sanitary Sewer chapters; a suspension, unless revoked, shall continue until the next regular meeting of the Council. The Superintendent shall notify the plumber immediately by personal written notice of the suspension, the reasons for the suspension, and the time and place of the Council meeting at which the plumber will be granted a hearing. At this Council meeting the Superintendent shall make a written report to the Council stating the reasons for the suspension, and the Council, after fair hearing, shall affirm or revoke the suspension or take any further action that is necessary and proper.

96.04 EXCAVATIONS. All excavations required for the installation of a building sewer shall be open trench work unless otherwise approved by the City. Pipe laying and backfill shall be performed in accordance with A.S.T.M. Specification C-12, except that no backfill shall be placed until the work has been inspected. The excavations shall be made in accordance with the provisions of Chapter 135 where applicable.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. Old Building Sewers. Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.

2. Separate Building Sewers. A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

3. Installation. The connection of the building sewer into the public sewer shall conform to the requirements of Division 4, Plumbing Rules and Regulations, of the State Building Code, applicable rules and regulations of the City, or the procedures set forth in A.S.T.M. Specification C-12. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least ten (10) feet horizontally from a water service. The horizontal
CHAPTER 96       BUILDING SEWERS AND CONNECTIONS

separation may be less, provided the water service line is located at one side and at least twelve (12) inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four (4) inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:
   A. Recommended grade of one-fourth (¼) inch per foot.
   B. Minimum grade of one-eighth (1/8) inch per foot.
   C. Minimum velocity: 2.00 feet per second with the sewer half full.
   D. Deviations: any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.

7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.

8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.

9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in Division 4 of the State Building Code except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:
   A. Clay sewer pipe - A.S.T.M. C-700 (extra strength).
   C. Ductile iron water pipe - A.W.W.A. C-151.

10. Bearing Walls. No building sewer shall be laid parallel to, or within three (3) feet of any bearing wall, which might thereby be weakened.

11. Jointing. Fittings, type of joint, and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.
12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six (6) inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as provided by the Iowa Public Health Bulletin and Division 4 of the State Building Code, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.

2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner’s expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the “Y” branch, if such branch is available at a suitable location. If no properly located “Y” branch is available, a “Y” saddle shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued and attached with stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent’s direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid under ground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER’S RESPONSIBILITY. All costs and expenses incident to the installation, connection and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner’s expense, within thirty (30) days after date of official notice from the Council of
such violation. If not made within such time the Council shall, in addition to
the other penalties herein provided, have the right to finish and correct the work
and assess the cost thereof to the property owner. Such assessment shall be
collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3])
CHAPTER 97

USE OF PUBLIC SEWERS

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.

2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.

3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

5. Excessive B.O.D., Solids or Flow. Any waters or wastes having (a) a five (5) day biochemical oxygen demand greater than three hundred (300) parts per million by weight, or (b) containing more than three hundred fifty (350) parts per million by weight of suspended solids, or (c) having an average daily flow greater than two (2) percent of the average sewage flow of the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner’s expense, such preliminary treatment as may be necessary to (a) reduce the biochemical oxygen demand to three hundred (300) parts per million by weight, or (b) reduce the suspended solids to three hundred fifty (350) parts per million by weight, or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty (150) degrees F (65 degrees C).

2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100)
milligrams per liter or six hundred (600) milligrams per liter of dispersed or other soluble matter.

3. Viscous Substances. Water or wastes containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) degrees F (0 and 65 degrees C).

4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (½) inch in any dimension.

5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.

6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.

7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of state, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.

8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.

10. Unusual Wastes. Materials which exert or cause:
    A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
    B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).
C. Unusual B.O.D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.

D. Unusual volume of flow or concentration of wastes constituting “slugs” as defined herein.

11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance which either singly or by interaction with other wastes is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.

12. Damaging Substances. Any waters, wastes, materials or substances which react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.

13. Untreatable Wastes. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES - POWERS. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;

2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;

3. Controls Imposed. Require control over the quantities and rates of discharge; and/or

4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the
plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner’s expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner’s expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas pH’s are determined from periodic grab samples).
CHAPTER 98
ON-SITE WASTEWATER SYSTEMS

98.01 WHEN PROHIBITED. Except as otherwise provided in this chapter, it is unlawful to construct or maintain any on-site wastewater treatment and disposal system or other facility intended or used for the disposal of sewage.

(Code of Iowa, Sec. 364.12[3f])

98.02 WHEN REQUIRED. When a public sanitary sewer is not available under the provisions of Section 95.05, every building wherein persons reside, congregate or are employed shall be provided with an approved on-site wastewater treatment and disposal system complying with the provisions of this chapter.

(IAC, 567-69.1[3])

98.03 COMPLIANCE WITH REGULATIONS. The type, capacity, location and layout of an on-site wastewater treatment and disposal system shall comply with the specifications and requirements set forth by the Iowa Administrative Code 567, Chapter 69, and with such additional requirements as are prescribed by the regulations of the County Board of Health.

(IAC, 567-69.1[3&4])

98.04 PERMIT REQUIRED. No person shall install or alter an on-site wastewater treatment and disposal system without first obtaining a permit from the County Board of Health.

this Code of Ordinances. The fees for discontinuance of service, disconnection and reconnection, as set forth in Section 92.05 of this Code of Ordinances shall apply.

100.12 ANNUAL REVISION OF RATES. The City will review the storm water service charges at least yearly and revise the storm water service charges as necessary to ensure that such charges as herein established and specified generate adequate revenues to pay the costs of maintenance and operation (including replacement and debt service) of a storm water management system and facilities. The liability of a storm water service user to pay for charges as provided in this chapter shall not be contingent, however, upon any such review or revision.

The term “gas” as used in this franchise shall be construed to mean natural gas only.

110.02 MAINS AND PIPES; INDEMNIFICATION. The mains and pipes of the Company must be so placed as not to interfere unnecessarily with water pipes, drains, sewers and fire plugs which have been or may hereafter be placed in any street, alley and public places in said City nor unnecessarily interfere with the proper use of the same, including ordinary drainage, or with the sewers, underground pipe and other property of the City, and the Company, its successors and assigns shall hold the City free and harmless from all damages arising from the negligent acts or omissions of the Company in the laying down, operation and maintenance of said natural gas distribution system.

In making any excavations in any street, alley, avenue or public place, Company, its successors and assigns, shall protect the site while work is in progress by guards, barriers or signals, shall not unnecessarily obstruct the use of the streets, shall back fill all openings in such manner as to prevent settling or depressions in surface, and shall replace the surface, pavement or sidewalk of such excavations with same materials, restoring the condition as nearly as practical and if defects are caused shall repair the same.

If the City orders or requests the Company to relocate its existing facilities or equipment for the primary benefit of a commercial or private project, or as the result of the initial request of a commercial or private developer or other non-public entity, the Company shall receive payment for the cost of such relocation as a precondition to relocating its existing facilities or equipment. The City shall consider reasonable alternatives in designing its public works projects so as not arbitrarily to cause the Company unreasonable additional expense in exercising its authority under this section. The City shall also provide a reasonable alternative location for the Company’s facilities. The City shall give the Company reasonable advance written notice to vacate a public right-of-way. Vacating a public right-of-way shall not deprive the Company of its right to operate and maintain existing facilities, until the reasonable cost of relocating the same are paid to the Company.

Said Company, its successors and assigns, shall throughout the term of the franchise distribute to all consumers gas of good quality and shall furnish uninterrupted service, except as interruptible service may be specifically contracted for with consumers; provided, however, that any prevention of service caused by fire, act of God or unavoidable event or accident shall not be a breach of this condition if the Company resumes service as quickly as is reasonably practical after the happening of the act causing the interruption.

110.06 NONEXCLUSIVE. The franchise granted by this chapter shall not be exclusive.

110.07 TERM OF FRANCHISE. The term of the franchise granted by this chapter and the rights thereunder shall continue for the period of twenty-five (25) years from and after its acceptance by the Company, as herein provided.

If the City orders or requests the Company to relocate its existing facilities or equipment for the primary benefit of a commercial or private project, or as the result of the initial request of a commercial or private developer or other non-public entity, the Company shall receive payment for the cost of such relocation as a precondition to relocating its existing facilities or equipment. The City shall consider reasonable alternatives in designing its public works projects so as not arbitrarily to cause the Company unreasonable additional expense in exercising its authority under this section. The City shall also provide a reasonable alternative location for the Company’s facilities. The City shall give the Company reasonable advance written notice to vacate a public right-of-way. Vacating a public right-of-way shall not deprive the Company of its right to operate and maintain existing facilities, until the reasonable cost of relocating the same are paid to the Company.

111.07 NONEXCLUSIVE. The franchise granted by this chapter shall not be exclusive.

111.08 CONTINUOUS SERVICE. Service to be rendered by the Company under this chapter shall be continuous unless prevented from so doing by fire, acts of God, unavoidable accidents or casualties, or reasonable interruptions necessary to properly service the Company’s equipment, and in such event service shall be resumed as quickly as is reasonably possible.

111.09 TERM OF FRANCHISE. The term of the franchise granted by this chapter and the rights thereunder shall continue for the period of twenty-five (25) years from and after its acceptance by the Company, as herein provided.
111.10 ENTIRE AGREEMENT. This chapter sets forth and constitutes the entire agreement between the Company and the City of Conrad with respect to the rights contained herein, and may not be superceded, modified or otherwise amended without the approval and acceptance of the Company. Notwithstanding the foregoing, in no event shall the City of Conrad enact any ordinance or place any limitations, either operationally or through the assessment of fees that create additional burdens upon the Company or which delay utility operations.

115.02 Definitions. The following words and phrases, when used herein, shall, for the purposes of this chapter, have the meanings ascribed to them in this section:

1. “CATV” means cable TV; a television distribution method in which signals from distant stations are received, amplified and then transmitted by (coaxial or fiber) cable to users.

2. “Company” means any corporation, business association, partnership or person who is authorized to do business in the State of Iowa and who may be granted franchise rights for the purpose of constructing, operating and maintaining a cable television system in the City.

3. “Federal Communications Commission” or “FCC” means the Federal agency by that name as constituted by the Communications Act of 1934, as amended.

4. “Gross subscriber revenues” means only those revenues derived from the monthly service charges paid by subscribers located within the City for regular cable television reception service, which service includes only the transmission of broadcast signals and the programming presented on the required access and origination channels, if any. Gross subscriber revenues shall not include any revenues received:

   A. As reimbursement of expenses in the operation of any access channels;

   B. As advertising payments;
C. From the leasing of cable channels;

D. From programs for which a per-channel or per-program charge is made; and

E. From furnishing other communications and non-broadcast services either directly or as a carrier for another party or any other income derived from the system. Gross subscriber revenues shall also not include revenues received as installation charges and fees for reconnections, inspections, repairs or modifications of any installations.

5. “System” means the lines, fixtures, equipment, attachments and appurtenances thereto which are used in the construction, operation and maintenance of the community antenna television system authorized by this chapter.

115.03 GRANTING OF FRANCHISE. Prior to the granting of a franchise to construct, operate and maintain a cable television system in the City, a full, open and public meeting shall be held with notice as the Council may prescribe by resolution. Upon a finding by the Council that the Company possesses the necessary legal, technical, character, financial and other qualifications and that the Company’s construction arrangements are adequate and feasible, the City may thereafter grant to the Company a nonexclusive franchise, right and privilege to construct, erect, operate, modify and maintain in, upon, among, across, above and over and under the highways, streets, alleys, sidewalks, public ways and public places now laid out or dedicated and all extensions thereof, and additions thereto in the City, poles, wires, cables, underground conduits, manholes and other television conductors and fixtures necessary for the maintenance and operation in the City of a cable television system for the purpose of distributing television and radio signals, and other electronic impulses in order to furnish television and radio programs, and various communications and other electronic services to the public. The right so granted includes the right to use and occupy said streets, alleys, public ways and public places and all manner of easements for the purposes set forth in this chapter.

115.04 COMPLIANCE REQUIRED GENERALLY. The Company shall, at all times during the life of the regulatory ordinance codified in this chapter, be subject to all lawful exercise of the police power by the City and to such reasonable regulations as the City shall hereafter by resolution or ordinance provide. The construction, operation and maintenance of the system by the Company shall be in full compliance with such portions of the National Electrical Safety Code as may be applicable and as the same may be amended and revised from time to time, and in full compliance with all other applicable
rules and regulations now in effect or hereafter adopted by the Federal Communications Commission, the City or any other agency of the State or the United States, which may hereafter acquire jurisdiction of the operations of the Company authorized in this chapter.

**115.05 NATIONAL ELECTRIC SAFETY CODE.** All facilities and equipment of the Company shall be constructed and maintained in accordance with the requirements of the National Electrical Safety Code, and such applicable ordinances and regulations set forth by the City and/or any local, State or Federal agencies.

**115.06 FCC REGULATIONS.** The Company shall, at all times, comply with the rules and regulations governing CATV operations promulgated by the FCC, specifically those set out in Section 76.31 of the FCC Rules and Regulations. This shall include adherence by the Company to FCC rules regarding technical and engineering specifications involved in the construction of the CATV system and signal carriage therein.

**115.07 MODIFICATION OF FCC RULES.** Consistent with the requirements of Rule 76.31 (a)(6) of the FCC, any modification of Rule 76.31 resulting from amendment thereto by the FCC shall be incorporated in this chapter by specific amendment thereto by lawful action of the Council within one year from the effective date of the FCC’s amendment or at the time of renewal of the ordinance codified in this chapter, whichever occurs first.

**115.08 TRANSFER.** The Company shall not sell or transfer its system to another, or transfer any rights under this chapter to another without written notice and approval by the City; provided, that such approval shall not be unreasonably withheld if the vendee, assignee or lessee has filed with the appropriate official of the City an instrument duly executed, reciting the fact of such sale, assignment or lease, accepting the terms of this chapter and agreeing to perform all conditions thereof.

**115.09 COMPANY RULES AND REGULATIONS.** The Company shall have the authority to promulgate such rules, regulations, terms and conditions governing the conduct of its business as shall be reasonably necessary to enable the Company to exercise its rights and perform its obligations under this chapter and to assure uninterrupted service to each and all of its customers; provided, however, that such rules, regulations, terms and conditions shall not be in conflict with the provisions hereof or of Federal and State law.

**115.10 FRANCHISE TERM.** The franchise granted under this chapter shall terminate twenty-five (25) years from the date of grant, subject to renewal for period of reasonable duration on the same terms and conditions as contained in
this chapter, or on such different or additional terms and conditions as may be lawfully specified by the Council and as are consistent with the requirements of Rule 76.31 of the FCC.

115.11 FRANCHISE RENEWAL. No renewal of the ordinance codified in this chapter shall be effective except pursuant to a public proceeding affording due process. The Company shall be a party to any such proceedings and any other proceedings in which its rights, privileges or interests would be affected and shall be fully entitled to such due process rights as may be available under applicable laws, ordinances, rules and regulations.

115.12 SYSTEM CONSTRUCTION, MAINTENANCE AND PROCEDURES.

1. In furtherance of the Company’s execution of contracts with public utility companies or any other owner or lessee of any poles located within or without the City to whatever extent such contract or contracts may be expedient and of advantage to the Company for use of poles and posts necessary for proper installation of the system, the Company may obtain right-of-way permits from appropriate State, County and Federal officials necessary to cross highways or roads under their respective jurisdictions, to supply main trunk lines from the Company’s receiving antennas, obtain permission from the Federal Aviation Authority to erect and maintain antennas suitable to the needs of the system and its subscribers and obtain whatever other permits a City, County, State or Federal agency may require. The Company shall construct its cable system using material of good and durable quality and all work involved in the construction, installation, maintenance and repair of the cable system shall be performed in a safe, thorough and reliable manner. Any municipal property damaged or destroyed shall be promptly repaired or replaced by the Company and restored to serviceable condition.

2. The Company’s system, poles, wires and appurtenances shall be located, erected and maintained so that none of its facilities shall endanger or interfere with the lives of persons or interfere with any improvements the City may deem proper to make or unnecessarily hinder or obstruct the free use of the streets, alleys, bridges, easements or public property.

3. In the event that the City annexes further territory as authorized by the law, the Company shall extend energized trunk cable to the remaining portions of the City so annexed within an acceptable time thereafter, unless additional time is granted by the Council upon request.
of the Company for good cause shown. Extension of service shall not be one of the requirements as set forth in this section.

4. All transmission and distribution structures, lines and equipment erected by the Company within the City shall be so located as to cause minimum interference with the proper use of streets, alleys and other public ways and places, and to cause minimum interference with the rights of reasonable convenience of property owners who adjoin any of the said streets, alleys or other public ways and places. In the event the electrical and phone lines are buried to the subscriber’s residence, the Company shall be required to bury the cable also.

5. In case of any disturbance of pavement, sidewalk, driveway, grass or other surfacing, the Company shall, at its own cost and expense and in a manner approved by the City, replace and restore all paving, sidewalk, driveway, grass, shrubs, trees, fences or surface of any street or alley or other public or private property in as good condition as before said work was commenced.

6. In the event that at any time during the period of the franchise the City lawfully elects to alter or change the grade of any street, alley or other public way, the Company, upon reasonable notice by the City, shall remove, relay or relocate its poles, wires, cables, underground conduits, manholes and other fixtures at its own expense.

7. The Company shall not place poles or other fixtures where the same will interfere with any gas, electric or telephone fixtures, water hydrants or mains and all such poles or other fixtures placed in any street shall be placed at the outer edge of the sidewalk and inside the curb line, and those placed in alleys shall be placed close to the line of the lot abutting on said alley, and then in such manner as not to interfere with the usual travel on said streets, alleys and public ways.

8. The Company shall, on the request of any person holding a building moving permit issued by the City temporarily raise or lower its wires to permit the moving of buildings. The expense of such temporary removal, raising or lowering of wires shall be paid by the person requesting the same and the Company shall have the authority to require such payment in advance. The Company shall be given no less than forty-eight (48) hours advance notice to arrange for such temporary wire changes.

9. The Company shall have the authority to trim trees upon and overhanging streets, alleys, sidewalks and public places of the City so as to prevent the branches of such trees from coming in contact with the
wires and cables. All tree trimming is to be done under the direction of the City and at the expense of the Company.

10. The Company shall provide, upon request and without charge, service to any municipal buildings owned and operated by the City and to any public or parochial elementary or secondary school. This shall mean only an energized cable to such building. The cost of any internal wiring shall be borne by the institution.

11. Within six (6) months after the effective date of the ordinance codified by this chapter, the Company shall file with the Federal Communications Commission such request, petition or other application as is then proper to secure from said Federal Communications Commission any and all necessary permits, licenses, waivers or the like as may be necessary to be secured from said Federal Communications Commission and shall do all reasonable things necessary and proper to secure any such permit, license, waiver, approval or the like from it. The Company shall keep the City advised, from time to time, of the progress of such application.

115.13 PERFORMANCE GUARANTY. The Company shall secure and provide, at its expense, a performance bond to insure completion of initial installation of the system. This bond shall run in favor of the City and shall be in the sum of $100,000.00. In lieu of a performance bond, the Company may substitute an irrevocable letter of credit, drawn on a solvent Iowa bank, which shall permit the City to draft upon the same in the event of a default by the Company in the completion of the initial installation of a system.

115.14 LINE EXTENSIONS. It shall be the obligation of the Company to serve all residents of the City except to the extent that density of homes, adverse terrain or other factors render providing service impracticable, technically infeasible or economically non-compensatory. For purposes of determining compliance with the provisions of this section, the Company shall extend service to new subscribers at the normal installation charge and monthly rate for customers of that classification where there is an average of forty-five (45) homes per each linear mile of new cable construction. In the event that the requirements of this section are not met, extensions of service shall be required only on a basis which is reasonable and compensatory.
115.15 CITY RIGHTS.

1. City Rules. The right is reserved by the City to adopt, in addition to the provisions contained in this chapter and existing applicable ordinances, such additional regulations as it shall find necessary in the exercise of its police power; provided, that such regulations, by ordinance or otherwise, shall be reasonable and not in conflict with the rights granted in this chapter, and shall not be in conflict with the applicable laws of the State or the United States.

2. Emergency or Disaster. In the case of any emergency or disaster, the Company shall, upon request of the City, make available its facilities to the City for emergency use during the emergency or disaster period. The Company will allow an emergency disaster warning system to be hooked up through the cable system.

3. No Property Right. Nothing in this chapter shall grant to the Company any right of property in the City-owned property, nor shall the City be compelled to maintain any of its property any longer than or in any fashion other than in the City’s judgment, its own business or needs may require.

4. Construction Approval by City. Except for individual service drops, the Company shall not erect any pole, install any underground lines or conduits, run any line, make any attachment, nor shall any construction of any kind be commenced without the prior approval of the director of engineering or appropriate department of the City, which approval shall not be unreasonably withheld, and the City shall have and maintain the right to inspect the construction, operation and maintenance of the system by the Company to insure the proper performance of the terms of this chapter.

5. Correction of Defects. In the event the Company should violate any of the terms of this chapter, or any of the rules and regulations as may be from time to time lawfully adopted, the City shall immediately give to the Company sixty (60) days’ written notice to correct such violation.

115.16 PAYMENTS TO THE CITY.

1. The Company shall pay to the City a fee equal to three percent (3%) of the gross subscriber revenues received by the Company for monthly cable television services rendered to customers located within the City.
2. All payments from the Company to the City shall be paid annually and shall be due forty-five (45) days after the close of each calendar year.

3. Subscriber lists and necessary data shall be provided to the City upon request. A certified statement showing gross subscriber revenues shall be furnished annually to the City.

The Company shall supply to the City, upon completion of the initial installation of the system, a complete system map showing the location of all lines, poles and other Company apparatus with subscriber usage symbols. This map shall be updated at least annually.

115.19 SERVICE PROCEDURES. During the term of the franchise, and any renewal thereof, the Company shall maintain a nearby business office or agent for the purpose of receiving and resolving all questions regarding the quality of service, equipment malfunctions and similar matters. The provisions of this section shall be complied with if the Company may be reached by nearby toll-free telephone call and provides the Clerk’s office with the name, address and telephone number of a person who will act as the Company’s agent to receive complaints regarding quality of service, equipment malfunctions and similar matters. The nearby office shall be open to receive inquiries or complaints from subscribers during normal business hours, and in no event less than 9:00 a.m. to 5:00 p.m., Monday through Friday. Any complaints from subscribers shall be investigated and acted upon as soon as possible, but at least within four (4) business days of their receipt. The Company shall keep a maintenance service log which will indicate the nature of each service complaint, the date and time it was received, the disposition of said complaint and the time and date thereof. This log shall be made available for periodic inspection by the City.

115.20 PROTECTION OF PRIVACY. The Company shall not permit the transmission of any signal, aural, visual or digital, including “polling” the channel selection, from any subscriber’s premises without first obtaining
written permission of the subscriber. It is unlawful for any person to attach or affix or cause to be attached or affixed any equipment or device which allows access or use of the cable television service without payment to the Company for same. Such action shall be a simple misdemeanor.

115.21 PROGRAM CONTENT RESTRICTIONS. In addition to providing basic cable television service consisting of broadcast and automated signals, the Company may offer subscribers optional services on a per-program or per-channel basis. However, the Company shall not display X-rated motion pictures as part of its basic cable service during the daytime or “prime-time” viewing hours.

115.22 DISCRIMINATION PROHIBITED. The Company shall not refuse to hire or discriminate against any person regarding compensation, terms, conditions or privileges of employment because of sex, age, race, color, creed or national origin. The Company shall take affirmative action to insure that employees are treated, during employment, without regard to their sex, age, race, color, creed or national origin.

115.23 LIABILITY AND INDEMNIFICATION. The Company shall indemnify the City and hold it harmless from all liability, damage, cost or expense arising from claims of injury to persons or damage to property occasioned by reason of any conduct undertaken pursuant to this chapter. The City shall notify the Company’s representative within fifteen (15) days after the presentation of any claim or demand to the City, either by suit, or otherwise, made against the City on account of any negligence or contract as aforesaid on the part of the Company. The Company agrees as follows:

1. The Company shall carry Worker’s Compensation insurance with statutory limits and Employers’ Liability insurance with limits of not less than one hundred thousand dollars ($100,000.00) which shall cover all operations to be performed by the Company as a result of this chapter.

The amounts of insurance to be carried for liability due to property damage shall be five hundred thousand dollars ($500,000.00) as to any one occurrence and against liability due to injury or death of persons, five hundred thousand dollars ($500,000.00) as to any one person and one million dollars ($1,000,000.00) as to any one occurrence. The City shall reserve the right during the term of the franchise to increase or decrease the amount of insurance coverage required, provided that notice in writing is made to the Company of all increases or decreases in said insurance coverage requirements. The Company shall, within sixty (60) days of receipt of that written notice, obtain such insurance coverage as is specified in said notice.

Company’s Worker’s Compensation, Comprehensive General Liability and Comprehensive Automobile Liability insurance shall be written by an insurance company with a capital and/or surplus of not less than three million dollars ($3,000,000.00) and Company agrees to furnish the City with certified copies or certificates of insurance of said policies, which shall provide that insurance shall not be canceled unless ten (10) days prior written notice first be given to the City.

115.24 ACTIVITIES PROHIBITED.

2. The Company shall not, as to rates, charges, service facilities, rules, regulations or in any other respect, make or grant any preference or advantage to any person, nor subject any person to any prejudice or disadvantage, provided that nothing in this chapter shall be deemed to prohibit the establishment of a graduated scale of charges and classified rate schedules to which any customer coming within such classification would be entitled.

115.25 VIOLATION; PENALTY. Should the Company, its successors or assigns violate any of the provisions of this chapter or any reasonable rules and regulations established by the City pursuant hereto and should such violation continue for more than thirty (30) days after the City has given the Company written notice of such violation, failure or default, or should the Company file for bankruptcy or be adjudicated a bankrupt or be placed in receivership, the same shall be cause for the forfeiture or revocation of the franchise and the termination of all rights hereunder; provided, however, any delay in correcting such violation which is caused by factors beyond the control of the Company shall not be included in computing the length of the continuance of such violation.

The City has the power to require such owner or lessee to build or construct such a drain or passageway for water as the Council may by resolution designate. In such case the Council shall have power, by resolution, to order such owner or lessee to construct said drain within the time to be designated by the Council, and upon such order being made, it shall be the duty of the Street Superintendent to notify such owner or lessee, in writing, and if such owner or lessee fails or refuses to construct such drain within the time and manner required, the Street Superintendent shall proceed at once to build such drain, and report the

2. Private Property. If it is determined with reasonable certainty that any such condition exists on private property and that danger to other trees or to adjoining property or passing motorists or pedestrians is imminent, the Council shall notify by certified mail the owner, occupant or person in charge of such property to correct such condition by treatment or removal within fourteen (14) days of said notification. If such owner, occupant or person in charge of said property fails to comply within fourteen (14) days of receipt of notice, the Council may cause the condition to be corrected and the cost assessed against the property.

(Code of Iowa, Sec. 364.12[3b & h])

151.07 DESTRUCTION OF NOXIOUS WEEDS. It is the duty of every property owner or person, owning or occupying real estate within the corporation limits of the City, to remove from their property or the streets or highways adjoining property all noxious weeds thereon as defined by State law at such times and in such manner as the Council shall provide by resolution.
The Council may fix by resolution a date for the destruction of noxious weeds. The Council shall publish a notice of said resolution in one publication of a newspaper of general circulation which serves the City. The notice shall state therein the time for destruction of such weeds, the manner of destroying the same, if other than by cutting, and that unless said resolution is complied with, the Council will cause said weeds to be destroyed and the cost thereof taxed against the owner of the property.

151.08 CONTROL OF VEGETATION. It is the duty of every owner and the person occupying any real estate within the corporation limits of the City which is platted or used for residential, commercial or industrial purposes, other than property being used as timberland or for agricultural purposes, to maintain the property in such a condition so that all uncultivated vegetation thereon is cut, sprayed or otherwise controlled so that the height does not exceed six (6) inches.
CHAPTER 160

FLOOD PLAIN MANAGEMENT

160.01  STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSE.

1. The Legislature of the State of Iowa has in Chapter 414, Code of Iowa, as amended, delegated the power to cities to enact zoning regulations to secure safety from flood and to promote health and the general welfare.

2. Findings of Fact.
   A. The flood hazard areas of the City of Conrad are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety and general welfare of the community.
   B. These flood losses, hazards, and related adverse effects are caused by: (i) The occupancy of flood hazard areas by uses vulnerable to flood damages which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding and (ii) the cumulative effect of obstructions on the flood plain causing increases in flood heights and velocities.

3. Statement of Purpose. It is the purpose of this chapter to protect and preserve the rights, privileges and property of the City of Conrad and its residents and to preserve and improve the peace, safety, health, welfare, and comfort and convenience of its residents by minimizing those flood losses described in Section 160.01(2)(A) of this chapter with provisions designed to:
   A. Restrict or prohibit uses which are dangerous to health, safety or property in times of flood or which cause excessive increases in flood heights or velocities.
   B. Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.
   C. Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.
   D. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.
160.02 DEFINITIONS. Unless specifically defined below, words or phrases used in this chapter shall be interpreted so as to give them the meaning they have in common usage and to give this chapter its most reasonable application.

1. “Base Flood” means the flood having one (1) percent chance of being equaled or exceeded in any given year. (See 100-year flood).

2. “Basement” means any enclosed area of a building which has its floor or lowest level below ground level (subgrade) on all sides. Also see “lowest floor.”

3. “Development” means any man-made change to improved or unimproved real estate, including but not limited to building or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

4. “Existing Construction” means any structure for which the “start of construction” commenced before the effective date of the flood plain management regulations adopted by the community. May also be referred to as “existing structure.”

5. “Existing Factory-Built Home Park or Subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the first flood plain management regulations adopted by the community.

6. “Expansion of Existing Factory-Built Home Park or Subdivision” means the preparation of additional sites by the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

7. “Factory-Built Home” means any structure, designed for residential use which is wholly or in substantial part, made, fabricated, formed or assembled in manufacturing facilities for installation or assembly and installation, on a building site. For the purpose of this chapter factory-built homes include mobile homes, manufactured homes and modular homes and also includes “recreational vehicles” which are placed on a site for greater than 180 consecutive days and not fully licensed for and ready for highway use.

8. “Factory-Built Home Park” means a parcel or contiguous parcels of land divided into two or more factory-built home lots for sale or lease.

9. “Flood” means a general and temporary condition of partial or complete inundation of normally dry land areas resulting from the overflow of streams or rivers or from the unusual and rapid runoff of surface waters from any source.

10. “Flood Elevation” means the elevation floodwaters would reach at a particular site during the occurrence of a specific flood. For instance, the 100-year flood elevation is the elevation of flood waters related to the occurrence of the 100-year flood.

11. “Flood Insurance Rate Map (FIRM)” means the official map prepared as part of (but published separately from) the Flood Insurance Study which delineates both the flood hazard areas and the risk premium zones applicable to the community.
12. “Flood Plain” means any land area susceptible to being inundated by water as a result of a flood.

13. “Flood Plain Management” means an overall program of corrective and preventive measures for reducing flood damages and promoting the wise use of flood plains, including but not limited to emergency preparedness plans, flood control works, floodproofing and flood plain management regulations.

14. “Floodproofing” means any combination of structural and nonstructural additions, changes, or adjustments to structures, including utility and sanitary facilities, which will reduce or eliminate flood damage to such structures.

15. “Floodway” means the channel of a river or stream and those portions of the flood plains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one (1) foot.

16. “Floodway Fringe” means those portions of the flood plain, other than the floodway, which can be filled, leveed, or otherwise obstructed without causing substantially higher flood levels or flow velocities.

17. “Historic Structure” means any structure that is:
   A. Listed individually in the National Register of Historic Places, maintained by the Department of Interior, or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing of the National Register;
   B. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
   C. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
   D. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified by either (i) an approved state program as determined by the Secretary of the Interior or (ii) directly by the Secretary of the Interior in states without approved programs.

18. “Lowest Floor” means the floor of the lowest enclosed area in a building including a basement except when all the following criteria are met:
   A. The enclosed area is designed to flood to equalize hydrostatic pressure during floods with walls or openings that satisfy the provisions of Section 160.05(4)(A) of this chapter; and
   B. The enclosed area is unfinished (not carpeted, drywalled, etc.) and used solely for low damage potential uses such as building access, parking or storage; and
C. Machinery and service facilities (e.g., hot water heater, furnace, electrical service) contained in the enclosed area are located at least one (1) foot above the 100-year flood level; and

D. The enclosed area is not a “basement” as defined in this section.

In cases where the lowest enclosed area satisfies criteria A, B, C and D above, the lowest floor is the floor of the next highest enclosed area that does not satisfy the criteria above.

19. “New Construction” (new buildings, factory-built home parks) means those structures or development for which the start of construction commenced on or after the effective date of the first flood plain management regulations adopted by the community.

20. New Factory-built Home Park or Subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of first flood plain management regulations adopted by the community.

21. “One Hundred (100) Year Flood” means a flood, the magnitude of which has a one (1) percent chance of being equaled or exceeded in any given year or which, on the average, will be equaled or exceeded at least once every one hundred (100) years.

22. “Recreational Vehicle” means a vehicle which is:

A. Built on a single chassis;

B. Four hundred (400) square feet or less when measured at the largest horizontal projection;

C. Designed to be self-propelled or permanently towable by a light duty truck; and

D. Designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel, or seasonal use.

23. “Special Flood Hazard Area” means the land within a community subject to the “100-year flood.” This land is identified as Zone A on the community’s Flood Insurance Rate Map.

24. “Start of Construction” means substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement, was within 180 days of the permit date.

The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation.

Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the
main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether or not that alteration affects the external dimensions of the building.

25. “Structure” means anything constructed or erected on the ground or attached to the ground, including, but not limited to, buildings, factories, sheds, cabins, factory-built homes, storage tanks, and other similar uses.

26. “Substantial Damage” means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred.

27. “Substantial Improvement” means any improvement to a structure which satisfies either of the following criteria:

A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure either (i) before the “start of construction” of the improvement, or (ii) if the structure has been “substantially damaged” and is being restored, before the damage occurred.

The term does not, however, include any project for improvement of a structure to correct existing state or local health, sanitary, or safety code specifications which are solely necessary to assure safe conditions for the existing use. The term also does not include any alteration of an “historic structure,” provided the alteration will not preclude the structure's designation as an “historic structure.”

B. Any addition which increases the original floor area of a building by 25 percent or more. All additions constructed after on or after the effective date of flood plain management regulations adopted by the community shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.

28. “Variance” means a grant of relief by a community from the terms of the flood plain management regulations.

29. “Violation” means the failure of a structure or other development to be fully compliant with the community’s flood plain management regulations.

160.03 GENERAL PROVISIONS.

1. Lands to Which Chapter Apply. The provisions of this chapter shall apply to all lands within the jurisdiction of the City of Conrad which are located within the boundaries of the Flood Plain (Overlay) District as established in Section 160.04.

2. Rules for Interpretation of Flood Plain (Overlay) District. The boundaries of the Flood Plain (Overlay) District areas shall be determined by scaling distances on the Official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the Zoning Administrator shall make the necessary interpretation. The Zoning Board of Adjustment shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Zoning Administrator in the enforcement or administration of this chapter.
3. Compliance. No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this chapter and other applicable regulations which apply to uses within the jurisdiction of this chapter.

4. Abrogation and Greater Restrictions. It is not intended by this chapter to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this chapter imposes greater restrictions, the provision of this chapter shall prevail. All other ordinances inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.

5. Interpretation. In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements and shall be liberally construed in favor of the governing body and shall not be deemed a limitation or repeal of any other powers granted by State statutes.

6. Warning and Disclaimer of Liability. The standards required by this chapter are considered reasonable for regulatory purposes. This chapter does not imply that areas outside the designated Flood Plain (Overlay) District areas will be free from flooding or flood damages. This chapter shall not create liability on the part of the City of Conrad or any officer or employee thereof for any flood damages that from reliance on this chapter or any administrative decision lawfully made thereunder.

7. Severability. If a court of competent jurisdiction adjudges any section, clause, provision or portion of this chapter unconstitutional or invalid, the remainder of this chapter shall not be affected thereby.

160.04 ESTABLISHMENT OF FLOOD PLAIN (OVERLAY DISTRICT). The areas within the jurisdiction of the City of Conrad having special flood hazards are hereby designated as a Flood Plain (Overlay) District and shall be subject to the standards of the Flood Plain (Overlay) District (as well as those for the underlying zoning district). The Flood Plain (Overlay) District boundaries shall be as shown on the Flood Insurance Rate Map (FIRM) for Grundy County and Incorporated Areas, the City of Conrad, Panels 410 and 430, dated October 19, 2005.

160.05 STANDARDS FOR FLOOD PLAIN (OVERLAY) DISTRICT. All uses must be consistent with the need to minimize flood damage and meet the following applicable performance standards. Where 100-year flood data has not been provided on the Flood Insurance Rate Map, the Iowa Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

1. All development within the Flood Plain (Overlay) District shall:
   A. Be consistent with the need to minimize flood damage.
   B. Use construction methods and practices that will minimize flood damage.
   C. Use construction materials and utility equipment that are resistant to flood damage.
D. Obtain all other necessary permits from federal, state and local governmental agencies including approval when required from the Iowa Department of Natural Resources.

2. Residential Buildings. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one (1) foot above the 100-year flood level. Construction shall be upon compacted fill which shall, at all points, be no lower than one (1) foot above the 100-year flood level and extend at such elevation at least eighteen (18) feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers) may be allowed subject to favorable consideration by the Board of Adjustment, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding.

All new residential structures shall be provided with a means of access which will be passable by wheeled vehicles during the 100-year flood.

3. Non-residential Buildings. All new or substantially improved non-residential buildings shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the 100-year flood level, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 100-year flood; and that the structure, below the 100-year flood level is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to National Geodetic Vertical Datum) to which any structures are floodproofed shall be maintained by the Administrator.

4. All new and substantially improved structures.

A. Fully enclosed areas below the “lowest floor” (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:

1. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.

2. The bottom of all openings shall be no higher than one foot above grade.

3. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided they permit the automatic entry and exit of floodwaters.

Such areas shall be used solely for parking of vehicles, building access and low damage potential storage.

B. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral
movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

C. New and substantially improved structures must be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

5. Factory-built homes:

A. All factory-built homes, including those placed in existing factory-built home parks or subdivisions shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one (1) foot above the 100-year flood level.

B. All factory-built homes, including those placed in existing factory-built home parks or subdivisions shall be anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

6. Utility and Sanitary Systems:

A. On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.

B. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one (1) foot above the 100-year flood elevation.

C. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities (other than on-site systems) shall be provided with a level of protection equal to or greater than one (1) foot above the 100-year flood elevation.

D. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.

7. Storage of materials and equipment that are flammable, explosive or injurious to human, animal or plant life is prohibited unless elevated a minimum of one (1) foot above the 100-year flood level. Other material and equipment must either be similarly elevated or (i) not be subject to major flood damage and be anchored to prevent movement due to flood waters or (ii) be readily removable from the area within the time available after flood warning.

8. Flood control structural works such as levees, flood walls, etc. shall provide, at a minimum, protection from a 100-year flood with a minimum of three (3) feet of design freeboard and shall provide for adequate interior drainage. In addition, the Department of Natural Resources shall approve structural flood control works.
9. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, the Department of Natural Resources must approve such alterations or relocations.

10. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this chapter. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the 100-year flood. Proposals for subdivisions greater than five (5) acres or fifty (50) lots (whichever is less) shall include 100-year flood elevation data for those areas located within the Flood Plain (Overlay) District.

11. Accessory Structures.
   A. Detached garages, sheds, and similar structures accessory to a residential use are exempt from the 100-year flood elevation requirements where the following criteria are satisfied.
      (1) The structure shall not be used for human habitation.
      (2) The structure shall be designed to have low flood damage potential.
      (3) The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.
      (4) The structure shall be firmly anchored to prevent flotation which may result in damage to other structures.
      (5) The structure’s service facilities such as electrical and heating equipment shall be elevated or floodproofed to at least one foot above the 100-year flood level.
   B. Exemption from the 100-year flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

12. Recreational Vehicles.
   A. Recreational vehicles are exempt from the requirements of Section 160.05(5) of this chapter regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.
      (1) The recreational vehicle shall be located on the site for less than 180 consecutive days, and,
      (2) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.
   B. Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of Section 160.05(5) of this chapter regarding anchoring and elevation of factory-built homes.
13. Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

160.06 ADMINISTRATION.

1. Appointment, Duties and Responsibilities of Zoning Administrator.
   A. The Zoning Administrator is hereby appointed to implement and administer the provisions of this chapter and will herein be referred to as the Administrator.
   B. Duties of the Administrator shall include, but not necessarily be limited to the following:
      (1) Review all flood plain development permit applications to assure that the provisions of this chapter will be satisfied.
      (2) Review flood plain development applications to assure that all necessary permits have been obtained from federal, state and local governmental agencies including approval when required from the Department of Natural Resources for flood plain construction.
      (3) Record and maintain a record of the elevation (in relation to National Geodetic Vertical Datum) of the lowest floor (including basement) of all new or substantially improved structures in the Flood Plain (Overlay) District.
      (4) Record and maintain a record of the elevation (in relation to National Geodetic Vertical datum) to which all new or substantially improved structures have been floodproofed.
      (5) Notify adjacent communities/counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.
      (6) Keep a record of all permits, appeals and such other transactions and correspondence pertaining to the administration of this chapter.

2. Flood Plain Development Permit.
   A. Permit Required. A Flood Plain Development Permit issued by the Administrator shall be secured prior to any flood plain development (any man-made change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, excavation or drilling operations), including the placement of factory-built homes.
   B. Application for Permit. Application shall be made on forms furnished by the Administrator and shall include the following:
(1) Description of the work to be covered by the permit for which application is to be made.
(2) Description of the land on which the proposed work is to be done (i.e., lot, block, track, street address or similar description) that will readily identify and locate the work to be done.
(3) Indication of the use or occupancy for which the proposed work is intended.
(4) Elevation of the 100-year flood.
(6) Elevation (in relation to National Geodetic Vertical Datum) of the lowest floor (including basement) of buildings or of the level to which a building is to be floodproofed.
(7) For buildings being improved or rebuilt, the estimated cost of improvements and market value of the building prior to the improvements.
(8) Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this chapter.

C. Action on Permit Application. The Administrator shall, within a reasonable time, make a determination as to whether the proposed flood plain development meets the applicable standards of this chapter and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefore. The Administrator shall not issue permits for variances except as directed by the City Board of Adjustment.

D. Construction and Use to be as Provided in Application and Plans. Flood Plain Development Permits based on the basis of approved plans and applications authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this chapter. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State of Iowa, that the finished fill, building floor elevations, floodproofing, or other flood protection measures were accomplished in compliance with the provisions of this chapter, prior to the use or occupancy of any structure.

   A. The City Board of Adjustment may authorize upon request in specific cases such variances from the terms of this chapter that will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this chapter will result in unnecessary hardship. Variances granted must meet the following applicable standards.

   (1) Variances shall only be granted upon: (a) a showing of good and sufficient cause, (b) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (c) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety,
extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.

(2) Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

(3) In cases where the variance involves a lower level of flood protection for buildings than what is ordinarily required by this chapter, the applicant shall be notified in writing over the signature of the Administrator that: (a) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as $25 for $100 of insurance coverage and (b) such construction increases risks to life and property.

B. Factors Upon Which the Decision of the Board of Adjustment Shall be Based. In passing upon applications for Variances, the Board shall consider all relevant factors specified in other sections of this chapter and:

(1) The danger to life and property due to increased flood heights or velocities caused by encroachments.

(2) The danger that materials may be swept on to other land or downstream to the injury of others.

(3) The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.

(4) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.

(5) The importance of the services provided by the proposed facility to the City.

(6) The requirements of the facility for a flood plain location.

(7) The availability of alternative locations not subject to flooding for the proposed use.

(8) The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.

(9) The relationship of the proposed use to the comprehensive plan and flood plain management program for the area.

(10) The safety of access to the property in times of flood for ordinary and emergency vehicles.

(11) The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.

(12) The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical and water systems), facilities, streets and bridges.
CHAPTER 160  FLOOD PLAIN MANAGEMENT

(13) Such other factors which are relevant to the purpose of this chapter.

C. Conditions Attached to Variances. Upon consideration of the factors listed above, the Board of Adjustment may attach such conditions to the granting of variances as it deems necessary to further the purpose of this chapter. Such conditions may include, but not necessarily be limited to:

(1) Modification of waste disposal and water supply facilities.

(2) Limitation of periods of use and operation.

(3) Imposition of operational controls, sureties, and deed restrictions.

(4) Requirements for construction of channel modifications, dikes, levees and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purpose of this chapter.

(5) Floodproofing measures.

160.07 NONCONFORMING USES.

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of this chapter, but which is not in conformity with the provisions of this chapter, may be continued subject to the following conditions:

   A. If such use is discontinued for six (6) consecutive months, any future use of the building premises shall conform to this chapter.

   B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.

2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than fifty (50) percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this chapter. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.

160.08 PENALTIES FOR VIOLATIONS. Violations of the provisions of this chapter or failure to comply with any of the requirements shall constitute a misdemeanor. Any person who violates this chapter or fails to comply with any of its requirements shall upon conviction thereof be fined not more than five hundred dollars ($500.00) or imprisoned for not more than thirty (30) days. Nothing herein contained prevents the City of Conrad from taking such other lawful action as is necessary to prevent or remedy violation.
160.09 AMENDMENTS. The regulations and standards set forth in this chapter may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval of the Department of Natural Resources.

CHAPTER 165
ZONING REGULATIONS

GENERAL PROVISIONS AND DEFINITIONS

165.02 Application of District Regulations. The regulations set by this chapter within each district shall be minimum regulations and shall apply uniformly to each class or kind of structure or land, and particularly, except as hereinafter provided:

165.03 ESTABLISHMENT OF DISTRICTS; OFFICIAL ZONING MAP.

1. Official Zoning Map. The City shall be divided into districts, as shown on the Official Zoning Map which, together with all explanatory matter thereon, shall be adopted by ordinance.

The Official Zoning Map shall be identified by the signature of the Mayor, attested by the City Clerk.

If, in accordance with the provisions of this chapter and Chapter 414, Code of Iowa, changes are made in district boundaries or other matter portrayed on the Official Zoning Map, such changes shall be entered on the Official Zoning Map promptly after the amendment has been approved by the City Council, with an entry on the Official Zoning Map as follows: “By official action of the City Council, the following changes were made to the Official Zoning Map.” (Indicating the changes by ordinance numbers and date of publication.)

No amendment of these regulations which involves matter portrayed on the Official Zoning Map shall become effective until after such change and entry has been made on said map.
2. Replacement of the Official Zoning Map. In the event that the Official Zoning Map becomes damaged, destroyed, lost or difficult to interpret because of the nature or number of changes and additions, the City Council may by ordinance adopt a new Official Zoning Map which shall supersede the prior Official Zoning Map. The new Official Zoning Map may correct drafting or other errors or omissions in the prior Official Zoning Map, but no such correction shall have the effect of amending the original Official Zoning Map or any subsequent amendment thereof.

The new Official Zoning Map shall be identified by the signature of the Mayor, attested by the City Clerk, and bearing the Seal of the City under the following words: “This is to certify that this Official Zoning Map supersedes and replaces the Official Zoning Map adopted as part of Ordinance No. ________ of the City of Conrad, Iowa.”

6. Boundaries indicated as parallel to or extensions of features indicated in Subsections 1 through 5 above shall be so construed. Distances not specifically indicated on the Official Zoning Map shall be determined by the scale of the map.

7. Where physical or cultural features existing on the ground are at variance with those shown on the Official Zoning Map, or in other circumstances not covered by Subsections 1 through 6 above, the Board of Adjustment shall interpret the district boundaries.

8. Where a district boundary line divides a lot which was in single ownership at the time of passage of this chapter, the Board of Adjustment may permit, as a special exception, the extension of the regulations for either portion of the lot not to exceed fifty (50) feet beyond the district line into the remaining portion of the lot.

9. Whenever the Council vacates and disposes of a street or alley, adjacent districts shall extend to the center line of the vacation.

NONCONFORMITIES

165.10 NONCONFORMITIES. Within the districts established by this chapter there exist:

1. lots,
2. structures,
3. uses of land and structures, and
4. characteristics of use,

which were lawful before these regulations were adopted or amended, but which are prohibited, regulated, or restricted under the terms of this chapter or future amendments. It is the intent of this chapter to permit these nonconformities to continue until they are removed, but not to encourage their survival. Further, nonconformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

To avoid undue hardship, nothing in this chapter shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this chapter and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

165.11 NONCONFORMING LOTS OF RECORD. In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this chapter, notwithstanding limitations imposed by other provisions of the chapter. However, no such lot shall be less than fifty (50) feet in width or five thousand six hundred (5,600) square feet in area. This section shall apply even though such lot fails to meet the requirements for area or width, or both, if the lot conforms to other regulations for the district in which such lot is located. Variance of yard requirements shall be obtained only through the action of the Board of Adjustment.
165.12 NONCONFORMING USES OF LAND (OR LAND WITH MINOR STRUCTURES ONLY). Where at the time of adoption of this chapter lawful use of land exists which would not be permitted by the regulations imposed by this chapter, and where such use involves no individual structure with a replacement cost exceeding $1,000.00, the use may be continued so long as it remains otherwise lawful, provided:

1. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this chapter.

2. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of adoption or amendment of this chapter.

3. If any such nonconforming use of land ceases for any reason for a period of twelve (12) months, then any subsequent use of such land shall conform to the regulations specified by this chapter for the district in which such land is located.

4. No additional structure not conforming to the requirements of this chapter shall be erected in connection with such nonconforming use of land.

165.13 NONCONFORMING STRUCTURES. Where a lawful structure exists at the effective date of adoption or amendment of this chapter that could not be built under the terms of these regulations by reason of restrictions on area, lot coverage, height, yards, its location on the lot, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No such nonconforming structure may be enlarged or altered in such a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity.

2. Should such nonconforming structure or nonconforming portion of structure be destroyed by any means to an extent of more than fifty (50) percent of its replacement cost at time of destruction, it shall not be reconstructed except in conformity with the provisions of this chapter.

3. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

4. Nonconforming structures shall be allowed to be rebuilt on existing perimeters, but in no case shall any portion of said structure be
allowed to encroach over any adjoining property and if not rebuilt on an existing perimeter, they shall be rebuilt in conformance with all rules and regulations of this chapter.

165.14 NONCONFORMING USES OF STRUCTURES OR OF STRUCTURES AND LAND IN COMBINATION. If lawful use involving individual structures with a replacement cost of one thousand dollars ($1,000.00) or more, or of structure and land in combination, exists at the effective date of adoption or amendment of this chapter, that would not be allowed in the district under the terms of these regulations, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this chapter in the district in which it is located shall be enlarged, extended, constructed, reconstructed, or structurally altered other than replacing or repairing structural components, except in changing the use of the structure to a use permitted in the district in which it is located.

2. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this chapter, but no such use shall be extended to occupy any land outside such building.

3. If no structural alterations are made, any nonconforming use of a structure, or structure and land, may be changed to another nonconforming use provided that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use.

4. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed.

5. When a nonconforming use of a structure, or structure and land in combination, is discontinued or abandoned for twelve (12) consecutive months or for eighteen (18) months during any three-year period (except when government action impedes access to the premises) the structure, or structure and land in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.

6. When nonconforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of this subsection is defined as damage to an extent of more than fifty (50)
percent of the replacement cost at time of destruction. Replacement shall begin within six (6) months of the time of destruction or the nonconforming status shall expire. Said construction shall also be completed within eighteen (18) months of the time of destruction or the nonconforming status shall expire.

165.15 REPAIRS AND MAINTENANCE. On any building devoted in whole or in part to any nonconforming use, work may be done on ordinary repairs, provided that the cubic content of the building as it existed at the time of adoption or amendment of this chapter shall not be increased.

165.16 USES UNDER SPECIAL EXCEPTION PROVISIONS NOT NONCONFORMING USES. Any use which is permitted as a special exception in a district under the terms of this chapter (other than a change through Board of Adjustment action from a nonconforming use to another use not generally permitted in the district) shall not be deemed a nonconforming use in such district, but shall without further action be considered a conforming use.
165.20 DISTRICTS ESTABLISHED. The City is herewith divided into the following districts:

AG Agricultural District
CN Conservation District
RS Residential District
RM Residential Multi-Family District
MH Manufactured Housing District
AC Arterial Commercial District
BC Business Commercial District
LI Light Industrial District
HI Heavy Industrial District

These districts are established as identified on the Official Zoning Map which, together with all explanatory matters thereon, is hereby adopted by reference and declared to be part of this chapter.
165.22 AG – AGRICULTURAL DISTRICT.

1. Intent. This district is intended to provide for areas in which agriculture and related uses are encouraged as the principal use of land. However, uses which may be offensive to the surrounding area or to the community as a whole by reasons of noise, dust, smoke, odor, traffic or physical appearance or other similar factors are not permitted. The district prohibits urban density residential use until these areas may be served by utilities and services of the City. This district is also intended to preserve land suited for eventual development into other uses, pending proper timing for economical and practical provisions of streets, utilities, schools and other facilities so that reasonably compact development will occur and the fiscal integrity of the City is preserved. All newly annexed areas to the City will automatically be placed into this district classification unless otherwise suitably classified.

2. Permitted Uses. The following uses are permitted in the AG District:

   A. Agriculture, including the usual agricultural buildings and structures and excluding offensive uses.
   B. Home occupations.

3. Accessory Uses. Subject to Section 165.40 of this chapter, uses of land or structure customarily incidental and subordinate to a permitted use in the AG District include, but are not limited to, the following:

ZONING REGULATIONS

BOARD OF ADJUSTMENT

165.60 BOARD OF ADJUSTMENT; ESTABLISHMENT AND PROCEDURE.

1. Board Created. A Board of Adjustment is hereby established which shall consist of seven (7) members. The terms of office of the members of the Board and the manner of their appointment shall be as provided by statute. Vacancies shall be filled for the unexpired term of any member whose term becomes vacant.

A majority of the members of the Board of Adjustment shall be persons representing the public at large and shall not be involved in the business of purchasing or selling of real estate.

2. Proceedings of the Board of Adjustment. The Board of Adjustment shall adopt rules necessary to the conduct of its affairs and in keeping with the provisions of this chapter. Meetings shall be held at the call of the Chairperson and at such other time as the Board may determine. The Chairperson or, in that person’s absence, the Acting Chairperson may administer oaths and compel the attendance of witnesses. All meetings shall be open to the public.

The Board of Adjustment shall, through its Secretary, keep minutes of its proceedings, showing the vote of each member upon each question or if absent or failing to vote indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the Board and shall be a public record. All actions of the Board concerning special exceptions or variance shall also be recorded in the office of the County Recorder. It shall be the responsibility of the appellant to record said action and all corresponding stipulations and further said action shall take effect upon the Board receiving sufficient confirmation of the same. A copy of said action shall also be filed in the office of the Zoning/Building Administrator.

165.61 BOARD OF ADJUSTMENT; POWERS AND DUTIES. The Board of Adjustment shall have the following powers and duties:

1. Administrative Review. To hear and decide appeals where it is alleged there is an error in any order, requirement, decision, or determination made by the Zoning/Building Administrator in the enforcement of these regulations.
A. Appeals to the Board may be taken by any person aggrieved, or by any officer, department, board or bureau of the City of Conrad affected by any decision of the administrative officer. Such appeal shall be taken within sixty (60) days by filing with the Zoning/Building Administrator, and with the Board a notice of appeal specifying the grounds thereof. The Zoning/Building Administrator shall forthwith transmit to the Board all papers constituting the record upon which the action appealed from is taken.

B. The Board shall fix a reasonable time for the hearing of the appeal, and give not less than seven (7) days nor more than twenty (20) days public notice in a paper of general circulation in the City thereof, and decide the same within thirty (30) days. At said hearing, any party may appear in person, by agent or by attorney.

C. Stay of Proceedings. An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning/Building Administrator from whom the appeal is taken certifies to the Board of Adjustment after the Notice of Appeal is filed with the Administrator, that by reason of facts stated in the certificate, a stay would, in the Administrator’s opinion, cause imminent peril to life or property. In such case proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Adjustment or by a court of record on application, on notice to the Zoning/Building Administrator from whom the appeal is taken and on due cause shown.

2. Special Exceptions: Conditions Governing Applications; Procedures. To hear and decide only such special exceptions as the Board of Adjustment is specifically authorized to pass on by the terms of these regulations; to decide such questions as are involved in determining whether special exceptions should be granted; and to grant special exceptions with such conditions and safeguards as are appropriate under this chapter, or to deny special exceptions when not in harmony with the purpose and intent of this chapter. A special exception shall not be granted by the Board of Adjustment unless and until:

A. A written application for a special exception is submitted indicating the section of this chapter under which the special exception is sought and stating the grounds on which it is requested.
B. The Board shall fix a reasonable time for the hearing of the special exception, and give not less than seven (7) days nor more than twenty (20) days public notice in a paper of general circulation in the City thereof, and decide the same within thirty (30) days.

C. The public hearing shall be held. Any party may appear in person, or by agent or attorney.

D. The Board of Adjustment shall make a finding that it is empowered under the section of this chapter described in the application to grant the special exception, that the granting of the special exception will not adversely affect the public interest.

3. Variance, Conditions Governing Application; Procedures. To authorize upon appeal in specific cases such variance from the terms of this chapter as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of this chapter would result in unnecessary hardship. A variance from the terms of this chapter shall not be granted by the Board of Adjustment unless and until:

A. A written application for a variance is submitted demonstrating:

   (1) That special conditions and circumstances exist which are peculiar to land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same district;

   (2) That literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this chapter;

   (3) That the special conditions and circumstances do not result from the actions of the applicant;

   (4) That granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, structures, or buildings in the same district.

No nonconforming use of neighboring, lands, structures, or buildings in the same district, and no permitted or nonconforming use of land, structures, or buildings in other districts may be considered grounds for the issuance of a variance.
B. All requests for variances must be accompanied by documentation that all owners of property located within a one hundred fifty (150) foot distance of the site of the requested variance, have been notified of the proposed variance. The documentation shall include an indication of which property owners support granting the proposed variance and which property owners oppose granting the proposed variance. Required notification documentation shall be by written affidavit on forms provided by the City and shall be signed by the legal titleholder of the property.

C. The Board shall fix a reasonable time for the hearing of the variance, and give not less than seven (7) days nor more than twenty (20) days public notice in a paper of general circulation in the City thereof, and decide the same within thirty (30) days.

D. The public hearing shall be held. Any party may appear in person, or by agent or by attorney.

E. The Board of Adjustment shall further make a finding that the reasons set forth in the application justify the granting of the variance, and that the variance is the minimum variance that will make possible the reasonable use of the land, building, or structure.

F. The Board of Adjustment shall further make a finding that the granting of the variance will be in harmony with the general purpose and intent of this chapter, and will not be injurious to the neighborhood, or otherwise detrimental to the public welfare.

In granting any variance, the Board of Adjustment may prescribe appropriate conditions and safeguards in conformity with this chapter. Violation of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of these regulations and punishable under this chapter.

Under no circumstances shall the Board of Adjustment grant a variance to allow a use not permissible under the terms of this chapter in the district involved or any use expressly or by implication prohibited by the terms of this chapter in said district.

G. The concurring vote of the majority of the members of the Board shall be necessary to reverse any order, requirement, decision, or determination of the Zoning/Building Administrator,
or to decide in favor of the applicant on any matter upon which it is required to pass under this chapter, or to effect any variation in the application of this chapter.

H. The Council may provide for its review of variances granted by the Board of Adjustment before their effective date. The Council may remand a decision to grant a variance to the Board of Adjustment for further study. The effective date of the variance is, in such case, delayed for thirty (30) days from the date of the remand.

165.62 APPEALS FROM THE BOARD OF ADJUSTMENT. Any person or persons, or any board, taxpayer, department, board or bureau of the City, or other areas subject to this chapter aggrieved by any decision of the Board of Adjustment may seek review by a court of record of such decision, in the manner provided by the laws of the State and particularly by Chapter 414, Code of Iowa.
ENFORCEMENT AND AMENDMENTS

165.70 ENFORCEMENT AND INTERPRETATION. All questions of interpretation and enforcement shall be first presented to the Zoning/Building Administrator, or that person’s assistant. Such questions shall be presented to the Board of Adjustment only on appeal from the decision of the Zoning/Building Administrator, and recourse from the decisions of the Board of Adjustment shall be to the courts as provided by law and particularly by Chapter 414, Code of Iowa.

165.71 AMENDMENTS. The regulations, restrictions, and boundaries may, from time to time, be amended, supplemented, changed, modified, or repealed, provided that at least seven (7) days’ notice of the time and place of such hearing shall be published in a paper of general circulation in the City. In no case shall the notice be published more than twenty (20) days prior to the hearing.

The regulations, restrictions, and boundaries may, from time to time, be amended, supplemented, changed, modified, or repealed. Notwithstanding Section 414.2, as a part of an ordinance changing land from one zoning district to another zoning district or an ordinance approving a site development plan, the Council may impose conditions on a property owner which are in addition to existing regulations if the additional conditions have been agreed to in writing by the property owner before the public hearing required under this section or any adjournment of the hearing. The conditions must be reasonable and imposed to satisfy public needs which are directly caused by the requested change. In case, however, of a written protest against a change or repeal which is filed with the City Clerk and signed by the owners of twenty (20) percent or more of the area of the lots included in the proposed change or repeal, or by the owners of twenty (20) percent or more of the property which is located within two hundred (200) feet of the exterior boundaries of the property for which the change or repeal is proposed, the change or repeal shall not become effective except by the favorable vote of at least three-fourths (¾) of all the members of the Council. The protest, if filed, must be filed before or at the public hearing.

Proposed amendments not recommended by the Planning and Zoning Commission shall become effective only upon a favorable vote of three-fourths (¾) of the members of the City Council. All zoning amendment application forms shall be approved by resolution of the City Council.
165.72 VIOLATION. Failure to comply with the provisions of this chapter or with any of its requirements (including violations of conditions and safeguards established in connection with grants of variances or special exceptions) shall constitute a violation of this chapter. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the City from taking such other legal action as is necessary to prevent any violation.

165.73 SCHEDULE OF FEES, CHARGES, AND EXPENSES. The City Council shall establish a schedule of fees, charges, and expenses and a collection procedure for zoning district changes, zoning/building permits, appeals, and other matters pertaining to this chapter. The schedule of fees shall be posted in the office of the Zoning/Building Administrator and the City Clerk, and may be altered or amended only by the City Council, as recommended by the Planning and Zoning Commission. Until all applicable fees, charges, and expenses have been paid in full, no action shall be taken on any application or appeal.

165.74 COMPLAINTS REGARDING VIOLATIONS. Whenever a violation of this chapter occurs, or is alleged to have occurred, any person may file a written complaint. Such complaint, stating fully the causes and basis thereof, shall be filed with the Zoning/Building Administrator. The Administrator shall record properly such complaint, immediately investigate, and take action thereon as provided by this chapter.
EDITOR’S NOTE

The following ordinances have been adopted amending the Official Zoning Map described in Section 165.03 of this chapter and have not been included as a part of this Code of Ordinances but have been specifically saved from repeal and are in full force and effect.

CHAPTER 166

SUBDIVISION REGULATIONS

166.01 TITLE. This chapter shall be known and may be cited as the “Subdivision Regulation Ordinance of the City of Conrad, Iowa.”

166.02 PURPOSE. The purpose of this chapter is to provide for the harmonious development of the City and adjacent territory by establishing appropriate standards for streets, blocks, lots, utilities and other improvements, by promoting coordination with existing development, and by establishing procedures and conditions for the approval of subdivisions of land, all in the interest of the health, safety and general welfare of the community.

166.03 JURISDICTION. All plats, replats or subdivision of land into three or more parts for the purpose of laying out a portion of the City, addition thereto or, pursuant to Section 354.9 of the Code of Iowa, suburban lots within one (1) mile of the corporate limits of the City, for other than agricultural purposes shall be submitted to the Council and Planning and Zoning Commission of the City in accordance with the provisions of this chapter and shall be subject to the requirements established herein.

166.04 DEFINITIONS. For the purpose of this chapter, certain terms and words are hereby defined. Also, as used herein, the word “building” includes the word “structure.”

1. “Alley” means a permanent service way providing a secondary means of access to abutting lands.

2. “Building line” means a line established on a plat as a restrictive covenant, beyond which no building may be placed. The building lines need not correspond to the front, side, or rear yard requirement established in the Zoning Ordinance, and where they do not, the most restrictive requirement will control.

3. “Commission” means the Planning and Zoning Commission of the City.
4. “Cul-de-sac” means a short minor street having one end open to motor traffic, the other end being permanently terminated by a vehicular turnaround.

5. “Easement” means authorization by a property owner for the use by another, and for a specified purpose, of any designated part of said person’s property.

6. “Final plat” means the map or drawing, on which the subdivision plan is presented in the form which, if approved by the Council and Commission, will be filed and recorded with the County Recorder.

7. “Preliminary plat” means a study, or drawings indicating the proposed manner or layout of the subdivision which is submitted to the Council and Commission for consideration.

8. “Separate tract” means a parcel of land or a group of contiguous parcels of land under one ownership.

9. “Street” means a right-of-way dedicated to and accepted for the public use, which affords the principal means of access to abutting property.

   A. “Street, thoroughfare” means a street intended for cross-town or through traffic.

   B. “Street, collector” means a street intended to carry vehicular traffic from residential streets to traffic generators or thoroughfares.

   C. “Street, residential” means a street used primarily for access to abutting property.

10. “Street pavement” means the wearing or exposed surface of the street right-of-way used by vehicular traffic. The pavement width is measured from the back of the curb on one side to the back of the curb on the other side.

11. “Street right-of-way” means the area measured between property lines dedicated to and accepted for public use and providing access to abutting properties.

12. “Subdivider” means any person, firm, corporation, partnership, or association who shall lay out, for the purpose of sale or development, any subdivision or part thereof as defined herein, either for himself or others.

13. “Subdivision” means the division of a separate tract of land into three (3) or more lots or parcels for the purpose of transfer of ownership.
or building development, or if a new street is involved any division of a parcel of land.

166.05 PRELIMINARY PLAT PROCEDURES.

1. The owner or developer of any tract of land to be subdivided shall cause a preliminary plat to be prepared of the subdivision containing the information specified herein and shall file three (3) copies and a reproducible sepia or tracing of plat with the Clerk.

2. The Clerk shall immediately transmit two (2) copies of the preliminary plat to the Commission for study and recommendation.

3. The Commission shall examine the plat as to the compliance with this chapter, and the comprehensive plan of the City and shall have thirty (30) days within which to submit a recommendation to the Council, provided that the owner or developer may agree to an extension of time not to exceed sixty (60) days.

4. The Council, upon receipt of the Commission’s recommendation, or after thirty (30) days, or any extension thereof shall have passed, shall by resolution grant approval of or reject the preliminary plat. Approval of the preliminary plat by the Council shall constitute approval to proceed with preparation of the final plat but shall not be deemed approval of the subdivision.

166.06 FINAL PLAT PROCEDURES.

1. A final plat shall be submitted within twelve (12) months of the approval of the preliminary plat, or such approval shall expire and the preliminary plat shall be re-submitted for approval prior to preparation of a final plat.

2. Procedures for final plats shall be the same as set out for preliminary plats in Section 166.05.

3. Upon approval of the final plat, a certification of approval signed by the Mayor, and attested by the Clerk, shall be affixed to the original tracing of the final plat and copies of same filed with the Clerk, County Auditor, and County Recorder, along with such other certifications and instruments as may be required by law.

3. No public improvements over which the Council has control shall be made with City funds, nor shall any City funds be expended for street maintenance, street improvements, or other services in any area that has been subdivided after the date of adoption of the regulations contained in this chapter unless such subdivision and streets have been approved in accordance with the provisions of this chapter and the street accepted by the Council as a public street.
4. Penalty. Any person who shall hereafter dispose of or offer for sale or lease any lots in the City or addition thereto unless the plat thereof has been approved in accordance with this chapter and recorded, shall forfeit and pay five hundred dollars ($500.00) for each lot or part of lot sold or disposed of, leased, or offered for sale.

166.16 AMENDMENTS. This chapter may be amended from time to time by the Council. Such amendments as may be proposed shall first be submitted to the Commission for study and recommendation. CHAPTER 167

ADULT-ORIENTED ESTABLISHMENT REGULATIONS

167.01 PURPOSE. The City of Conrad finds:

1. Adult-oriented establishments require special consideration in order to protect and preserve the health, safety, and welfare of the patrons of such establishments as well as the citizens of Conrad;

2. Adult-oriented establishments, because of their very nature, may have a detrimental effect on nearby existing establishments and surrounding residential areas adjacent to them;

3. The concern over sexually-transmitted diseases is a legitimate health concern of the City that demands reasonable regulation of adult-oriented establishments in order to protect the health and well-being of the community;

4. The City of Conrad wants to prevent these adverse effects and thereby protect the health and welfare of its residents; protect residents from increased crime; preserve the quality of life; and preserve the property values and character of the surrounding neighborhoods.

5. It is the intent of this chapter to enact regulations that address the secondary effects of adult-oriented establishments as well as the health problems associated with such establishments.

167.02 DEFINITIONS RELATED TO ADULT-ORIENTED ESTABLISHMENTS.
